

# Utah Lead-Based Paint Program Certification Process

In order to perform regulated lead-based paint (LBP) work activities in the State of Utah, you must be a Utah certified LBP individual working for a Utah certified LBP firm.

1. To become a Utah certified LBP individual, you must complete an accredited LBP certification course matching the discipline in which you would like to become certified. Look at our training calendar on the Utah LBP program webpage ([leadbasedpaint.utah.gov](http://leadbasedpaint.utah.gov)) for scheduled classes or contact our accredited LBP training providers for class information.

2. Submit LBP individual certification application forms:

ATLAS Public Portal. Request to be signed up to use the ATLAS database to [leadbasedpaint@utah.gov](mailto:leadbasedpaint@utah.gov). Fill out the online form, upload a copy of your training certificate and citizenship verification form (one time for U.S. citizens and every time for non-U.S. citizens), then pay the fee. Email a passport quality photograph of yourself to [leadbasedpaint@utah.gov](mailto:leadbasedpaint@utah.gov).

3. If you are not currently employed by a Utah certified LBP firm, you must also certify your firm before performing any regulated LBP work activities. Please complete the LBP Certification Application for Firms following the process outlined above.

You will receive your Utah LBP certification card(s) by mail. This may take up to 30 days. Please note when your certification expires and be sure to recertify before your LBP individual or firm certification expires.
