

Required Attachments

Engine Label and VIN Plate Examples

- A clear, legible photo of the **engine label** that captures the engine make, model, year, horsepower, displacement, serial number, and engine family name
- A clear, legible photo of the **vehicle identification number (VIN) plate** that includes VIN and gross vehicle weight rating (GVWR) for each vehicle proposed for replacement or engine replacement
- All image files should be labeled by the last four digits of the VIN with a description of the photo (e.g. “VIN 7684 engine label left side,” “VIN 7684 engine label” or “VIN 7684 VIN plate”).
- Applications that include multiple vehicles/engines must compress image files into a zipped folder and attach in the application submittal email.
