

Statement of Interest

In the space below, let us know why you are interested in becoming a Clean Utah! facility and what you hope to accomplish in the program.

One of our guiding values is "commitment". We have defined this in these terms; "We are accountable to our stakeholders for excellence. "We pledge to give our best to our colleagues, our communities, our stockholders and our customers. We are passionate about what we do. We strive to constantly and consistently exceed expectations. "

As part of our commitment to the community we are working to maintain an ISO 14001 compliant facility. Partnering with the state of Utah and our local community, we hope to ensure a positive impact on the community in which we operate. The "Clean Utah" program is a partnership that should help us learn, grow, and improve as we strive to be a responsible neighbor in our community. OurHS&E policy reads, "We are committed to Health, Safety, and Environmental (HS&E) improvement as an integrated part of our business, including minimizing or eliminating real or potential hazards, preventing pollution, and complying with all applicable regulations.
