

PUBLIC NOTICE of COMPLETION
Five-Year Review of the International Smelting
and Refining (IS&R) Superfund Site
Tooele County, Utah

Summary: Third Five-Year Review Completed

The Utah Department of Environmental Quality, Division of Environmental Response and Remediation (UDEQ/DERR), and the U.S. Environmental Protection Agency (EPA), Region 8, have completed the third Five-Year Review for the International Smelting and Refining (IS&R) Superfund Site. Five-Year Reviews are required by the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) when hazardous substances remain on site above levels that permit unrestricted use and unlimited exposure. Five-Year Reviews are conducted to evaluate the site remedy and to determine whether site conditions remain protective of human health and the environment.

Protectiveness Statement: The EPA has determined in the Five-Year Review that the cleanup at the International Smelting and Refining Superfund Site is protective of human health and the environment. Groundwater use, including drinking the groundwater within the Pine Canyon Conservation Area, is prevented by a conservation easement and Environmental Covenant. Institutional Controls require soil sampling of undeveloped properties in the Pine Canyon Community to determine if remediation is needed for future residential development. This Five-Year Review Report was signed July 19, 2022 and the next Five-Year Review is required five years from the completion date.

A copy of the review is available at the DERR Offices located on the 1st Floor, at 195 North 1950 West, Salt Lake City, Utah, 84114. Please call for an appointment to review records at (801) 536-4100, Monday through Friday, from 8:30 A.M. to 4:30 P.M. The document is also available electronically at the UDEQ/DERR website at <http://www.environmentalresponse.utah.gov/>
