

UTAH'S PETROLEUM BROWNFIELDS ASSESSMENT GRANT APPLICATION

INTRODUCTION:

The Utah Department of Environmental Quality (UDEQ) has been awarded grant monies by the U.S. Environmental Protection Agency (EPA) to assist Utah communities with site investigations at eligible sites. These sites may include abandoned or underutilized properties such as former gasoline service stations or petroleum storage/bulk plants which may be impacted by petroleum-based contamination. By conducting these site investigations, UDEQ will work with eligible partners and communities to evaluate cost effective options to bring these underutilized sites back into beneficial reuse to assist in local redevelopment efforts.

ELIGIBILITY CRITERIA:

EPA requires that each site meet eligibility requirements prior to initiating any assessment work. For information on which sites may qualify for assessment grant funding, please visit our web page at <http://www.undergroundtanks.utah.gov/ustfielddassessment.htm>. The UDEQ will work with interested applicants to determine their eligibility for use of these funds.

APPLICANT INFORMATION:

Applicants Name: _____
Contact Person: _____
Phone Number: () _____ - _____
Email address: _____

PROPOSED SITE INFORMATION (If known):

Name of Site: _____
Current Land Owner: _____
Site Address: _____
Historical Use: _____
Current Use: _____
Proposed Use: _____

REQUESTED UDEQ ASSISTANCE (Check all that apply):

General information about the Petroleum Brownfields Assessment Grant Program
 Site-Specific Funding Determination for Environmental Sampling/Site Investigation
 Other: _____

NEXT STEPS:

Please return completed application form to: Leaking Underground Storage Tank Program, P.O. Box 14484, SLC, UT 84114-4840. If you have any questions regarding this application or the grant process, please contact staff with the Leaking Underground Storage Tank Program at (801) 536-4100. After we have reviewed your application, we will contact you to discuss your eligibility for funding, and your site-specific assessment needs.
