Each UST facility must have three classes of operators, A, B, and C, to perform specific duties and help ensure that UST systems remain in compliance and protects human health and the environment. Please list all facilities you may be responsible for as a class A or B operator and check if you are the primary. Each facility should have ONLY ONE "Primary A" and ONE "Primary B" Operator. Do not check "Primary A" or "Primary B" if you are a backup. **If you are the Primary A or Primary B Operator, you will be required to be re-trained if any of the listed facilities are found to be out of compliance under UAC R311-201-12(k).** List additional facilities on back of this form.
