Dear Underground Storage Tank Owner/operator:

The Utah Underground Storage Tank (UST) Act requires that owners and operators of regulated petroleum USTs qualify their tanks for and receive a Certificate of Compliance, and keep the USTs in substantial compliance with all UST rules and regulations. It is a violation of the UST Act to operate USTs without a Certificate of Compliance. New USTs must have a certificate before being put into operation. A fine of $500 per delivery may be assessed if petroleum or another regulated substance is delivered to or placed into an UST that does not have a Certificate of Compliance.

The enclosed packet explains what you need to do to obtain a Certificate of Compliance. Please read it carefully and submit the requested information to the Division of Environmental Response and Remediation (DERR) in a timely fashion so the certificate can be issued before you use your USTs. To receive a Certificate of Compliance, you must do the following:

1. Register the USTs with the DERR using the form Notification for Underground Storage Tanks. The UST owner and certified installer must sign the form to certify a proper installation. New USTs must have secondary containment on the tanks and piping, and under-dispenser containment. Interstitial Monitoring must be performed for leak detection on the tanks and piping.
2. Pay the Registration Fee for each UST. A fee invoice is sent when the one-time delivery authorization letter (item #4 below) is issued.
3. Submit a completed Application for Certificate of Compliance form and meet the requirements for coverage under the Petroleum Storage Tank Trust Fund or another allowable Financial Responsibility mechanism. You must meet all requirements for coverage under your chosen mechanism, including payment of all related fees, before you operate the USTs.
4. Conduct tank and line tightness tests and line leak detector functionality tests for all USTs. To receive fuel for the tests, you must contact the DERR office at (801) 536-4100 for written authorization of a one-time delivery.
5. Submit a completed Previous Pollution Incidents form to indicate whether you have had any petroleum releases at the facility.
6. Submit a facility site plat or as-built drawing for the UST system.
7. Submit results of spill bucket and containment sump integrity tests. These tests must be conducted according to the equipment manufacturer's requirements or a nationally-recognized code of practice.
8. Submit a completed tank manufacturer's tank installation checklist.
9. Designate Class A and Class B operators for the facility. The operators must be properly trained and registered in accordance with Section R311-201-12 of the Utah UST rules.

Send the forms, test results, and fee payments to the DERR at the address indicated below. When the necessary information is received and is in order, the DERR will issue a Certificate of Compliance. Timely completion of the needed forms and other requirements will facilitate the process and help you avoid loss of the use of your USTs. The Utah Underground Storage Tank Act (Utah Code Ann. 19-6-401 et seq.) requires that a Certificate of Compliance be issued for new USTs before they are put into use. If you have any questions, please contact the UST Section at (801) 536-4100.
Obtaining a Certificate of Compliance

WHAT IS REQUIRED?
The Utah Underground Storage Tank (UST) Act requires that owners and operators of regulated petroleum USTs obtain a Certificate of Compliance, and keep the USTs in substantial compliance with all UST rules and regulations. It is a violation of the UST Act to operate these USTs without a certificate. New USTs must have a certificate before being put into operation. A fine of $500 may be assessed to the UST owner and the fuel distributor for each delivery to an UST that does not have a Certificate of Compliance.

HOW DO I GET A CERTIFICATE?
To qualify for a Certificate of Compliance, complete the following steps:

1. Register the USTs using Notification for Underground Storage Tanks, EPA Form 7530-1 (Rev. 6-2015). The UST owner and the certified installer must sign the form to certify a proper installation.
2. Pay the Registration Fee of $110 per tank for USTs participating in the PST Fund, or $220 per tank for USTs using another allowable financial responsibility mechanism.
3. Submit a completed Application for Certificate of Compliance and declare whether you will participate in the Utah Petroleum Storage Tank Trust Fund (PST Fund) or demonstrate financial responsibility for your USTs by another allowable mechanism. You must meet all requirements for coverage under your chosen mechanism before you operate the USTs.
4. Conduct tank and line tightness tests and line leak detector functionality tests and submit a copy of the results. The tests must be performed by a Utah certified UST Tester. To receive fuel for the test, you must contact the Division of Environmental Response and Remediation (DERR) at (801) 536-4100 for written authorization of a one-time delivery. The DERR will need to know the date of delivery and the name of the company that will deliver the fuel.
5. Submit a completed Previous Pollution Incidents form to indicate whether you have had any petroleum releases at the facility. If you participate in the PST Fund, failure to report previous releases could void your coverage. Payment of clean-up costs for previous releases is your responsibility.
6. Submit a facility site plat or as-built drawing that shows the tank excavation, buildings, tanks, product lines, vent lines, cathodic protection systems, tank leak detection systems and product line leak detection systems.
7. Submit copies of integrity tests of all spill buckets and containment sumps. These tests must be conducted according to the equipment manufacturer's requirements or a nationally-recognized code of practice.
8. Submit a completed copy of the tank manufacturer's tank installation checklist.
9. Designate Class A and B operators for the facility. The operators must be properly trained and registered in accordance with the Section R311-201-12 of the Utah UST rules.

If you choose to participate in the PST Fund you must:
- Check the box on the Application for Certificate of Compliance to indicate PST Fund participation, and indicate the financial responsibility mechanism you will use to pay cleanup costs not covered by the Fund. Also indicate if the facility has any above-ground or non-regulated underground tanks.
- Pay the PST Fund fee. Pay $150 per tank for USTs installed at new facilities, or for a new UST installed at an existing facility that does not replace a previously-existing UST. If a new UST is a replacement for a previously-existing UST, the current year PST Fund fee paid for the original UST is applied to the new UST.

If you choose to demonstrate financial responsibility by another mechanism you must:
- Check the box on the Application for Certificate of Compliance to indicate use of an alternate financial responsibility mechanism, and indicate what mechanism you will use. Depending on the method used, indicate your fiscal year end date or the yearly insurance policy renewal date.
- Submit documentation for your chosen mechanism. The documents must conform to the format and wording specified in 40 CFR 280 subpart H. The state UST rules (R311-206-5) have additional requirements. The mechanism must be approved by the DERR before the Certificate of Compliance can be issued. The documentation should be submitted several weeks in advance of the time the tanks will go into service to allow for the approval process. If the mechanism has already been approved for other tanks, submit documentation to show coverage of the new tanks under the chosen mechanism.
- Pay the process fee of $420 for the mechanism to be used. If the mechanism has already been approved for other tanks, no process fee is due if the fee for the current year has already been paid.

For additional information on financial responsibility, refer to Demonstrating Financial Responsibility on the next page.

If you have questions, please contact the DERR UST Section at (801) 536-4100. Forms and additional information can be found on the internet at:

Submit the forms and other required information to:

Demonstrating Financial Responsibility

**WHAT IS FINANCIAL RESPONSIBILITY?**

State and Federal underground storage tank (UST) regulations require that owners and operators of regulated petroleum USTs demonstrate financial responsibility to show they can pay the costs of cleanups and third-party claims for leaks from USTs.

The amount of financial responsibility you must have depends on the type of business you operate, the yearly throughput of each facility, and the number of tanks you own. The following table shows the amounts required:

<table>
<thead>
<tr>
<th>WHO</th>
<th>THROUGHPUT OF FACILITY</th>
<th>PER OCCURRENCE COVERAGE REQUIRED</th>
<th>AGGREGATE COVERAGE REQUIRED</th>
</tr>
</thead>
<tbody>
<tr>
<td>PETROLEUM MARKETER</td>
<td>ANY THROUGHPUT</td>
<td>$1,000,000 if you own 100 or fewer tanks</td>
<td>$1,000,000</td>
</tr>
<tr>
<td>PETROLEUM NON-MARKETER</td>
<td>10,000 GALLONS OR LESS MONTHLY</td>
<td>$500,000</td>
<td>$2,000,000 if you own more than 100 tanks</td>
</tr>
<tr>
<td>PETROLEUM NON-MARKETER</td>
<td>MORE THAN 10,000 GALLONS MONTHLY</td>
<td>$1,000,000</td>
<td></td>
</tr>
</tbody>
</table>

- Marketing facilities (service stations, truck stops, etc.) must have $1 million of "per occurrence" coverage. This is the amount that must be available to pay the costs of one petroleum release. Non-marketing facilities must have the same amount of per occurrence coverage unless they have a monthly throughput of 10,000 gallons or less. In this case, the per occurrence coverage amount is $500,000.
- UST owner/operators must also have coverage for an annual aggregate amount. This is the amount that you must have to cover all leaks that might occur in one year. The amount of aggregate coverage depends on the number of tanks you own: $1 million if you have 100 or fewer tanks, $2 million if you have more than 100 tanks.

**HOW TO SHOW FINANCIAL RESPONSIBILITY**

Owner/operators of regulated petroleum USTs in Utah may show financial responsibility by participating in the Utah Petroleum Storage Tank Trust Fund (PST Fund) or by using one of the other mechanisms allowed by the Federal UST regulations (40 CFR 280, subpart H).

Demonstrating financial responsibility is one requirement for receiving a Certificate of Compliance. If you use a mechanism other than the PST Fund, you must meet all requirements for the mechanism before you receive a certificate.

**Petroleum Storage Tank Trust Fund**

The PST Fund pays for cleanup costs of covered releases. The responsible party pays the first $10,000 of eligible cleanup costs and the Fund pays the remaining eligible costs up to the limits set by statute (Section 19-6-419 UCA). Any costs in excess of these limits must be paid by the responsible party.

UST owner/operators who participate in the Fund pay an annual Petroleum Storage Tank Fund fee based on the throughput for each facility, and a per-gallon surcharge on petroleum products sold in the state.

**Other Financial Responsibility Mechanisms**

For those who do not participate in the Fund, the Federal UST regulations allow several options for demonstrating financial responsibility. Each one is described in detail in 40 CFR 280, subpart H. The state UST rules (R311-206-5) have additional requirements. Some of the allowed mechanisms are:

- **Self-insurance.** If your firm has a tangible net worth of at least $10 million, you can show financial responsibility by passing one of two financial tests.
- **Insurance.** UST liability insurance may be available from a private insurer or a risk retention group.
- **Guarantee.** You may secure a guarantee for the coverage amount from another firm with whom you have a substantial business relationship. The provider of the guarantee must pass a financial test.
- **Letter of credit.** A letter of credit is a contract involving you, an issuer (usually a bank), and a third party (such as the implementing agency) that obligates the issuer to help you demonstrate your financial responsibility.
- **Trust fund.** You may set up a fully-funded trust fund administered by a third party to show financial responsibility.

If you show financial responsibility by an allowable alternative mechanism, you must pay a processing fee and submit mechanism documentation, generally each year.

The mechanism you choose must cover costs of both corrective action and third-party liability, and must provide coverage up to the limits specified in 40 CFR 280.93.

**Keep In Mind:**

- If you use another financial responsibility mechanism, then later decide to participate in the PST Fund, you will be required to perform a tank and line tightness test and a site check (including soil and/or groundwater samples) before the tanks can participate in the PST Fund, as specified in the Utah UST Act, Section 19-6-428.
- If you choose to participate in the PST Fund, other tanks located at the same facility, including above-ground tanks and unregulated USTs, may be required to participate.

If you have questions, contact the DERR UST Section at (801) 536-4100. Forms and additional information are available at [https://deq.utah.gov/ProgramsServices/programs/tanks/ust/certification/newcertinst.htm](https://deq.utah.gov/ProgramsServices/programs/tanks/ust/certification/newcertinst.htm).

</thead>
</table>

TYPE OF FACILITY
- Marketing facility, or non-marketer with facility average monthly throughput greater than 10,000 gallons.
- Non-marketer with facility average monthly throughput less than 10,000 gallons.

COMPLIANCE WITH UST REGULATIONS
- All Underground Storage Tanks (USTs) at this facility have been registered.
- All UST registration fees and Petroleum Storage Tank Fund Fees have been paid.

Are your USTs currently in compliance with all Federal, State, and Local UST regulations?
- Yes  
- No  
If "No" describe items of non-compliance:

PREVIOUS POLLUTION INCIDENTS
- Complete the Previous Pollution Incidents form to indicate whether a pollution incident has occurred at the facility.

FINANCIAL RESPONSIBILITY MECHANISM DECLARATION (check one only)
- I choose to participate in the Petroleum Storage Tank (PST) Trust Fund.
  - Indicate the financial responsibility mechanism to be used for cleanup costs not covered by the Fund.
  - Indicate the number of above-ground tanks and non-regulated underground tanks at the facility.

Above-ground tanks and non-regulated USTs at the facility may be required to participate in the Fund.

- I choose another Financial Responsibility mechanism for the USTs at this facility.
  - Indicate the financial responsibility mechanism to be used:
  - (For self-insurance or guarantee) Indicate your company’s fiscal year end date:
  - (For Insurance) Indicate the date the policy is renewed each year:

The Certificate of Compliance cannot be issued until all documents have been submitted and the mechanism has been approved. If the mechanism has already been approved, submit documentation of coverage for the new tanks.

I certify under penalty of law that the above representations made by me are true and correct.

Owner/operator Signature __________________________ Date Signed ______________________
This letter, or an equivalent, must be signed and submitted as a requirement for receiving a Certificate of Compliance.

To: Mr. Brent H. Everett  
   Director  
   Division of Environmental Response and Remediation

Dear Mr. Everett:

As required by paragraph 19-6-413 of the Utah Underground Storage Tank Act, I have performed a tank and line tightness test on each tank at my facility. Based on this test, there has not been a release of petroleum. Additionally, based on "customary business inventory practices standards" I am not aware of any release of petroleum from my tanks.

Signature of owner/operator

Or, if a release is known to have occurred at this facility:

I have had the following releases of petroleum (detailed below; also indicate the actions you have taken to clean up the release):

_________________________________________________________________________________________________

_________________________________________________________________________________________________

_________________________________________________________________________________________________

_________________________________________________________________________________________________

_________________________________________________________________________________________________

_________________________________________________________________________________________________

Signature of owner/operator

Failure to report previous releases could invalidate your Certificate of Compliance.
