Each UST facility must have three classes of operators, A, B, and C, to perform specific duties and help ensure that UST systems remain in compliance and protects human health and the environment. Please list all facilities you may be responsible for as a class A or B operator. (Complete form on back of this page if you have additional facilities). Each facility should have ONLY one "Primary A" and one "Primary B" Operator. Do not check "Primary A" or "Primary B" if you are a backup. If you are the Primary A or Primary B Operator, you will be required to be re-trained if any of the listed facilities are found to be out of compliance under Utah Administrative Code, Subsection R311-201-12(k).
