</thead>
</table>

* Indicate the specific substance stored in each tank to be closed (regular, unleaded, diesel, waste oil, etc.)

- Vent lines open and functioning
- Product lines capped/secured
- Pumps, manways secured
- Corrosion protection is operating
- Release detection equipment is operating

### Temporary closure requirements:

When an UST system is temporarily closed, the owner/operator must:

- continue operation and maintenance of corrosion protection on tanks, lines, flex connectors, and other metallic system components.
- continue operation and maintenance of release detection OR empty the UST system to **less than 1 inch** of product.

When an UST system is temporarily closed for 3 months or more, the owner/operator must also:

- leave vent lines open and functioning
- cap and secure all other lines, pumps, manways, and ancillary equipment
- send a properly-completed Temporary Closure Notice form to the DERR/UST Section.

I certify under penalty of law that I am the Owner of the tank(s) described above and that I am familiar with the information on this form and that it is true, accurate and complete and further, that the procedures described herein were followed during tank closure.

Full Name of UST Owner: ___________________________  Date: __________

Return completed Temporary Closure Notice form to:

State of Utah Dept. of Environmental Quality
