

UTAH DEPARTMENT of  
ENVIRONMENTAL QUALITY  
**ENVIRONMENTAL RESPONSE  
& REMEDIATION**

Dear Above Ground Storage Tank Owners,

The Utah Department of Environmental Quality (DEQ), Division of Environmental Response and Remediation (DERR) will begin regulating Above Ground Storage Tanks (AST) starting July 1, 2021.

What is a regulated AST? A petroleum storage tank greater than 500 gallons and meets one or both of the following:

- If the AST rests on soil or gravel
- If any portion of the piping is underground

ASTs not regulated include:

- Less than 501 gallons
- Commercial airport for fueling
- Used in farm or agriculture
- Petroleum distributor or refiner (SIC Code 2911 or 5171)
- Related to oil or gas production and gathering operations
- Used for heating oil on premises

Owners and Operators with regulated ASTs must notify the DERR by July 1, 2022. A Notification form can be found below . Please fill out the form to the best of your ability.

Either email it to: [TankCompliance@utah.gov](mailto:TankCompliance@utah.gov)

or mail it to:

Division of Environmental Response and Remediation  
Underground Storage Tank Section  
P.O. Box 144840  
Salt Lake City, Utah 84114-4840

State AST regulations require that owners and operators of regulated ASTs demonstrate financial responsibility to show they can pay the costs of cleanups and third-party claims for leaks from ASTs. A method of financial responsibility must be in place by July 1, 2023. Financial Responsibility can be found in Section IX of the form. Indicate the method you think you will use. This does not obligate you.

Also, beginning May 5, 2021, all ASTs that are now regulated by DERR will be required to submit a closure plan for any closures, upgrades, line replacement, etc. And, releases from regulated ASTs will now be regulated by the DERR and the Underground Storage Tank reporting requirements and cleanup standards will apply.

Please sign and date the form and return it to the DERR. If you have questions please contact us at 801-536-4100.

# Utah Notification for Aboveground Petroleum Storage Tanks

Division of Environmental Response and Remediation Underground Storage Tank Section P.O. Box 144840 Salt Lake City, Utah 84114-4840	<b>Phone #</b> (801) 536-4100 <b>Fax #</b> (801) 359-8853 <b>Email:</b> <a href="mailto:TankCompliance@utah.gov">TankCompliance@utah.gov</a> <b>Web site:</b> <a href="http://deq.utah.gov">deq.utah.gov</a>	<b>STATE USE ONLY</b> Facility ID #: _____ Date Received: _____ Data Entry Clerk Initials: _____
--	---	---

**This form must be completed for each location containing aboveground petroleum storage tanks (APSTs) that are regulated by the State of Utah.**

I. Ownership of tank(s)	II. Location of tank(s)
Owner Name _____ Mailing Address _____ City _____ State _____ Zip _____ Contact _____ Phone # _____ Cell # _____ E-mail _____	Facility ID # <i>(unless new location)</i> _____ Facility Name _____ Street Address _____ County _____ City _____ Zip _____ Facility Phone # _____ Latitude: _____ Longitude: _____

III. Type of Notification	IV. Other
New Notification _____ Amended Notification _____  Located on land within an Indian reservation or on other Indian trust lands. Name of Tribe: _____	Federally regulated underground storage tanks are at this location. If so, please enter the Facility ID assigned in the space above under Section II.

V. Type of Owner	VI. Type of Facility	VII. Exempt
Commercial Private Federal Government State Government Local Government Tribal Government	Auto Dealership Contractor Federal – Non-military Federal – Military Gas Station Industrial Railroad Residential Trucking or Transport Utilities Other <i>(explain)</i>	Commercial Airport <i>(fueling)</i> Farm/Agriculture Petroleum Distributor/Refiner <i>(SIC Code 2911 or 5171)</i> Oil or Gas Production and Gathering Heating Oil used on premises Less than 501 gallons

VIII. Contact Person in Charge of Tanks			
Name: _____	E-mail: _____	Address: _____	Phone Number (Include Area Code): _____
Job Title: _____			

IX. Financial Responsibility		
I plan to meet the financial responsibility requirements by using the following mechanism(s): <i>(check all that apply)</i>		
Bond Rating Test Commercial Insurance Guarantee Letter of Credit	Local Government Financial Test Risk Retention Group Self-insurance <i>(Financial Test)</i> State Fund <i>(Petroleum Storage Tank Fund)</i>	Surety Bond Trust Fund Other Method <i>(explain)</i>

X. Certification (Read and sign after completing ALL SECTIONS of this notification form)		
I certify under penalty of law that I have personally examined and am familiar with the information submitted in Sections I through XI of this notification form and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, believe that the submitted information is true, accurate, and complete.		
Name and official title of owner or owner's Authorized representative <i>(Print)</i>	Signature	Date Signed

<b>XI. Description of Aboveground Petroleum Storage Tanks</b> <i>(complete for each tank at this location)</i>					
Tank Identification Number <i>(use additional pages if more than 5 APSTs)</i>	Tank #	Tank #	Tank #	Tank #	Tank #
<b>1. Tank system description</b> <i>(check all that apply)</i> <i>(if either of these apply, the ApST is regulated)</i> Rests directly on soil <i>(including gravel)</i> Any portion of piping buried or touches soil <i>(including gravel)</i>					
<b>2. Status of Tank</b> <i>(check only one)</i> Currently in Use Temporarily Closed					
<b>3. Date of Installation</b>					
<b>4. Capacity</b> <i>(501 gallons and greater)</i>					
<b>5. Tank Attributes</b> <i>(check all that apply)</i> Asphalt Coated or Bare Steel Cathodically Protected Steel <i>(impressed current)</i> Cathodically Protected Steel <i>(sacrificial anodes)</i> Composite <i>(steel clad with non-corrodible material)</i> Concrete Double Walled Manifolded Compartmentalized Field – constructed Steel Secondary Containment Concrete Secondary Containment Earthen Secondary Containment Tank rests on cradles UL Listed APST Connected to an Emergency Generator Other, Specify Here					
<b>6. Overfill Protection</b> <i>(check all that apply)</i> Automatic Shutoff High-level Alarm					
<b>7. Spill Prevention</b> Single Walled Dry Connect Fitting Other, Specify Here					

<p><b>8. Vapor Recovery Attributes</b> <i>(check all that apply)</i></p> <p>Pressure Vent Valve on Vent Pipe</p> <p>Coaxial Drop Tube at Tank</p> <p>Two Point Vapor Recovery at Tank</p> <p>Emergency Venting</p>					
<p><b>9. Piping Attributes</b> <i>(check all that apply)</i></p> <p>Bare Steel</p> <p>Galvanized Steel</p> <p>Fiberglass Reinforced Plastic</p> <p>Flexible Plastic</p> <p>Copper</p> <p>Cathodically Protected <i>(impressed current)</i></p> <p>Cathodically Protected <i>(sacrificial anodes)</i></p> <p>Double Walled</p> <p>Secondary Containment</p> <p>Airport Hydrant Piping</p> <p>Unknown</p> <p>Other, specify Here _____</p>					
<p><b>10. Piping Flexible Connectors</b> <i>(tank end)</i></p> <p>Containment sump</p> <p>Booted</p> <p>Not in contact with soil</p> <p>Cathodically Protected <i>(impressed current)</i></p> <p>Cathodically Protected <i>(sacrificial anodes)</i></p>					
<p><b>11. Piping Flexible Connectors</b> <i>(dispenser end)</i></p> <p>Containment sump</p> <p>Booted</p> <p>Not in contact with soil</p> <p>Cathodically Protected <i>(impressed current)</i></p> <p>Cathodically Protected <i>(sacrificial anodes)</i></p>					
<p><b>12. Piping Delivery Type</b></p> <p>Safe Suction <i>(no valve at tank)</i></p> <p>U.S. Suction <i>(valve at tank)</i></p> <p>Pressure</p> <p>Gravity Feed</p>					

<b>13. Substance</b> Gasoline - Regular (up to 10% ethanol) Gasoline - Midgrade (up to 10% ethanol) Gasoline - Premium (up to 10% ethanol) Gasoline – Ethanol Free Gasoline Containing > 10% ethanol <i>(specify amount of ethanol and grade of product)</i> Diesel Off Road Diesel Biodiesel Diesel Containing > 20% biodiesel <i>(specify amount of biodiesel)</i> Kerosene Avgas Jet Fuel New Oil Used Oil Other, specify here											
	<b>14. Release Detection</b> <i>(check all that apply)</i>	Tank	Pipe	Tank	Pipe	Tank	Pipe	Tank	Pipe	Tank	Pipe
	Tank Tightness Testing		■		■		■		■		■
	Automatic Tank Gauging		■		■		■		■		■
