

Application for Sales and/or Use Tax Exemption Certification

Date received:
Filing Date (application complete):

Read before completing this form.

- To be certifiable, the PCF(s) must be designed, constructed, installed, or be used primarily (its primary function is) to control remove, reduce or prevent water pollution. Basic to any consideration for exemption is that (1) there needs to be water pollution in the stream entering PCF(s) and (2) there needs to be a demonstrated reduction, control, or prevention of pollution.
- An application may be submitted after contract has been let for the PCF(s).
- Complete the application and send to the Division of Water Quality. The Director of the Division is also the Executive Secretary of the Water Quality Board and has authority to issue the certifications.
- The application can only be processed if the information is complete. The Division may request additional information before the application can be considered complete. Once the application is complete, the filing date is fixed and the 120 days processing period begins. The certification will consist of a letter signed by the Executive Secretary and will list what pollution control facilities or components are being certified, along with the costs submitted by the applicant. The certification is for the PCF, not the costs submitted.
- Before a certification is given, DWQ will consult with the Utah State Tax Commission.
