INDIVIDUAL WET DRILL HOLE
ABANDONMENT FOR BOND RELEASE

Final Drill Hole Number (corresponding to permit map): W005
Drill Hole Location (NAD 27-GPS) N 4369916.3 E 644651.7
Date of Drilling: 04 October 2011 Date of Abandonment: 09 October 2011

Drill Hole Abandonment Details: (Please include a description of drill hole completion [depth of hole, etc], any problems encountered, amount of casing removed, type of abandonment completed, and any other pertinent information)

Well W005 was drilled to 2,610' TD. The well is completed with 12" surface casing from surface to 407 MD and 5 1/2" production casing (15 1/2 lb/ft) from surface to 2,610' MD. The casing is cemented from 0' to 1,830' with cement (10% gypsum, 1/4 lb/sack flocele). The well was perforated over three 50' intervals: 2,060' - 2,130'; 2,330' - 2,380'; and 2,400' - 2,450'.

The well will not be abandoned; it is planned to put this well into production.

Reclamation Details (Please describe regrading and revegetation details for pads, roads, and pits.

No reclamation of pad or road conducted. The well will be tested for conversion to a water production well. The drilling sump will be closed and reclaimed after spring break-up 2012.
