

## UPCOMING EDUCATION AND DISCUSSION SESSIONS

**Purpose:** In response to requests to better inform stakeholders and provide the opportunity for discussion, these sessions are being held in advance of the submittal of the Depleted Uranium Performance Assessment. The first day will be an educational session. The goal will be to provide participants enough of an overview to effectively participate in/contribute to the second day discussions and to discussions on the Performance Assessment once it is released for public review.

Nov. 9 – 11:30 a.m. to 2:30 p.m.      Performance Assessments 101

\*\*\*Working lunch

*Overview of what you need to understand about modeling and other key aspects that go into a performance assessment*

Nov. 10 – 8:30 a.m to 4:30 p.m.      Discussion: Modeling considerations for the upcoming DU Performance Assessment

*What dose calculations are being used?  
How to model the Inadvertent Intruder?  
What about Lake Bonneville?*

**Who is invited:** Anyone with an interest is welcome and can listen in. Please recognize that the education and discussion sessions will be technical. We are looking for thoughtful suggestions, comments, etc. that may help us improve the process. Both sessions will be facilitated.

**RSVP** to Renette Anderson ([renetteanderson@utah.gov](mailto:renetteanderson@utah.gov)) to ensure enough handouts and related materials.

\*\*\*The first day is a working lunch. If you would like to order a box lunch (turkey, ham, roast beef, or vegetarian), please place your order by November 1. The cost is \$8 and can be paid on November 9.
