Re: Temporary Authorization Request 11-01356
Use of Leachate as Dust Suppression
UTD982598898

Dear Mr. Shrum:

On June 9, 2011, EnergySolutions submitted a Class 2 Permit Modification Request to make changes to Attachment II-1-6, *Leachate, Evaporation, and Decontamination Waste Management Plan*. This change will allow the use of leachate collected from the Mixed Waste Landfill Cell to be used for dust suppression within that cell.

Associated with this modification request is a request for temporary authorization to begin using this plan while the permit modification request is processed. This request will allow for the continued operation of the landfill cell with its large volumes of leachate.

The Division of Solid and Hazardous Waste has completed its review of this Temporary Authorization request. This approach to leachate management has been found to be consistent with other facilities in Utah and is hereby approved.

If you have any questions, please call Otis Willoughby at (801) 536-0220.

Sincerely,

ORIGINAL DOCUMENT SIGNED BY SCOTT T. ANDERSON ON 6/13/2011

Scott T. Anderson, Executive Secretary
Utah Solid and Hazardous Waste Control Board
