Subject: Inspection of Brush Resources Class IIIb Landfill

Dear Mr. Morris:

The Class IIIb Landfill at Brush Resources was inspected by Matt Sullivan of the Division of Solid and Hazardous Waste on November 5, 2009. We appreciate the assistance of Mr. Bryce Moody during the inspection.

Based on our inspection, the landfill was well operated and found to be in compliance with the permit requirements as noted in the attached checklist. To better utilize the air space in your landfill cell, please consider compacting bulky items on a consistent basis. The documents required by the permit were reviewed and acceptable.

Should you have any questions, please call Matt Sullivan or Ralph Bohn at (801)-538-6170.

Sincerely,

**Original Document signed by Dennis R. Downs on 11/23/09**

Dennis R. Downs, Executive Secretary  
Utah Solid and Hazardous Waste Control Board
