

NOTICE of INTENT for UTAH'S AFO PERMIT by RULE (PBR)

Submission of this Notice of Intent (NOI) constitutes application for coverage under the Permit by Rule.

Coverage may be denied for submittal of incomplete or inaccurate information.

Signature of the operator and/or owner of the facility is required for coverage. (There is no fee to obtain the Permit by Rule)

| Required NOI Content (Attach additional pages if needed) | | |
|---|---------------------------------|------------------|
| 1. Name(s) of responsible owners and operators. | 1. | |
| | 2. | |
| 2. Contact phone number, two if available. | 1. | 2. |
| 3. Facility name. | | |
| 4. Type of facility (dairy, beef feedlot, etc.). | Street Address: | |
| | Town/City, State, Zip: | |
| | Other location: (milepost, etc) | |
| | County: | |

| | 3. | |
| | 4. | |
| 9. Number of animals for each type, and type of containment (housed, open lot, barn, etc.). | Number of Animals for Each Type | Containment Type |
| | 1. | |
| | 2. | |
| | 3. | |
| | 4. | |

AFO Applicant Certification Statement

I certify that my facility under this notice of intent, has and is in compliance with, a site-specific nutrient management plan (NMP) that implements the most recent Natural Resources Conservation Service Practice 590, Nutrient Management. I certify that my NMP implements 40 CFR 122.42(e)(1)(i) through (viii) and the practices and protocols identified under those requirements. In addition, I certify that I keep records adequate to demonstrate compliance to the requirements above (NRCS Practice 590 and 40 CFR 122.42(e)(1)(i) through (viii)).

I hereby further certify that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that the permit by rule will not be in effect for my facility if: I submit false, incomplete, or misleading information; my facility fails to implement NRCS Practice 590 and 40 CFR 122.42(e)(1)(i) through (viii); or if I fail to keep records that demonstrate compliance to the permit by rule requirements.

40 CFR 122.42(e)(1)(i) through (viii)

- (i) Ensure adequate storage of manure, litter, and process wastewater, including procedures to ensure proper operation and maintenance of the storage facilities;
- (ii) Ensure proper management of mortalities (*i.e.*, dead animals) to ensure that they are not disposed of in a liquid manure, storm water, or process wastewater storage or treatment system that is not specifically designed to treat animal mortalities;
- (iii) Ensure that clean water is diverted, as appropriate, from the production area;
- (iv) Prevent direct contact of confined animals with waters of the United States (*waters of the state*);
- (v) Ensure that chemicals and other contaminants handled on-site are not disposed of in any manure, litter, process wastewater, or storm water storage or treatment system unless specifically designed to treat such chemicals and other contaminants;
- (vi) Identify appropriate site specific conservation practices to be implemented, including as appropriate buffers or equivalent practices, to control runoff of pollutants to waters of the United States;
- (vii) Identify protocols for appropriate testing of manure, litter, process wastewater, and soil;
- (viii) Establish protocols to land apply manure, litter or process wastewater in accordance with site specific nutrient management practices that ensure appropriate agricultural utilization of the nutrients in the manure, litter or process wastewater;
