

3- Summary of Proposed Rule Changes
Water Quality Work Group
October 28, 2009

Minor Edits

Rule Affected	Change Summary
R317-2-6.5(a)	Changed Union Pacific Causeway to Antelope Island Causeway for Gilbert Bay delineation.
R317-2-12	Moved reference from R317-2-12.1 to R317-2-12.2
R317-2-12.1(b)(1)	Deleted Deer Creek because Deer Creek is listed in R317-2-12.2
R317-2-12.1(b)(3)	Added phrase “except as listed below” per original intent
R317-13.2(a)	Added “...Virgin River <u>except as listed below</u> ”
R317-13.2(a)	Corrected the beneficial use class to 2A from 2B for the North Fork of the Virgin River
R317-2-13.5	Two different reaches for beneficial use for Mill Race were listed but beneficial uses were identical. The two reaches were combined. No changes to beneficial use classes.
R317-2.14.1	Added “dissolved” for inorganics analyses for clarification.
R317-2.14.1 Footnote 4	Corrected geographic reference from Quitcupah Creek to Ivie Creek
R317-2.14.2 Footnotes > 10	Footnotes renumbered to correct previous typographical error.
R317-2.14.2 Footnote 9a	Correct formula for ammonia with parentheses
R317-2.14.3a and R317-2.14.3b	Corrected cadmium and lead log function in formulas

Substantive Edits

R317-1-1	Added 2 definitions to support Antidegradation Rule
R317-1-1	Added definitions to support Narrative Standards
R317-2-7.2	Reworded narrative criteria for clarity
R317-2.14.2 Footnote 2	Reworded footnote for DO in deep waters.
R317-2.14.2 Footnote 2a	Added wetlands to the exclusion for deep impoundments with low water.
R317-2-7.2	Added text to describe the application of Narrative Standards
R317-2-3	Revised Antidegradation policy (see AntidegPolicy_27Oct.doc)
