Scott Anderson, Director
Division of Waste Management and Radiation Control
P.O. Box 144880
Salt Lake City, UT 84114-4880

Dear Mr. Anderson:

RE: Request to Extend the Submittal Deadline for the License Renewal Application for Utah Radioactive Materials License Number UT 09004

Anfield Resources Holding Corporation (ARHC) is possession of your letter dated July 5, 2018 responding to ARHC's June 14, 2018 request for a 60-day extension to correct and submit the renewal application for Radioactive Materials License Number UT 0900480. Due to a number of factors that have delayed our revision of the application to make the requested changes, including the availability of our contractor, we are requesting an additional 14 days to submit the revised License Renewal Application, now to be submitted on or before September 17, 2018.

In addition, we would like to clarify that the components of this application not previously submitted (e.g., Exhibit B.12, Mill Restoration Design Report and Exhibit B.4, Reclamation and Decommissioning Plan) have not yet been completed due to funding constraints and will not be part of the September 17, 2018 re-submittal. ARHC is diligently working to secure the funding to complete the application in a timely manner and appreciates the Department's understanding.

If you have any questions, please feel free to contact me.

Best regards,

Josh Bleak
