Facility File, Public Participation File, Alisa Westenskow

NOTICE OF PUBLIC COMMENT ON
Beaver County Class I Landfill Permit Modification
SW089

The Beaver County Class I Landfill is requesting a major modification to its existing permit. The basis of this request is intended to clarify the facility's acceptable wastes section of the permit. Regulated asbestos has been an acceptable waste on past permits and was requested in the facility renewal application received on August 25, 2017 (DSHW-2017-007603). The permit issued on August 15, 2019 (DSHW-2019-008582) had contradictory language both allowing and prohibiting regulated asbestos. This modification clarifies that regulated asbestos containing materials in compliance with R315-315-2 of the Utah Administrative Code are accepted. The Permit modification has been reviewed by the Division of Waste Management and Radiation Control for compliance with the Solid Waste Management Rules and a draft permit has been prepared. The Director is soliciting comments on the draft permit prior to final action by the Director.

The public comment period to receive comments on the permit modification will commence on November 12, 2020 and end on December 11, 2020.

Copies of the amended draft permit are available on the Internet at <https://deq.utah.gov/waste-management-and-radiation-control/waste-management-radiation-control-public-notice>.

Written comments will be accepted if received by 5:00 p.m. on December 11, 2020. Comments should be submitted by electronic mail, or by U.S. Postal Service or commercial carrier to the addresses detailed below.

Ty L. Howard, Director
Division of Waste Management and Radiation Control
Department of Environmental Quality
P.O. Box 144880
Salt Lake City, UT 84114-4880

Comments may be sent by electronic mail to: dwmrcpublic@utah.gov. Comments sent in electronic format should be identified by putting the following in the subject line: Public Comment on Beaver County Landfill Permit Modification. All documents included in comments should be submitted as ASCII (text) files or in pdf format.

Under Utah Code Section 19-1-301.5 a person who wishes to challenge a Permit Order may only raise an issue or argument during an adjudicatory proceeding that was raised during the public comment period and was supported with sufficient information or documentation to enable the director to fully consider the substance and significance of the issue.

For further information contact Bryan Woolf of the Division of Waste Management and Radiation Control at (801) 536-0227. In compliance with the Americans with Disabilities Act, individuals with special needs (including auxiliary communicative aids and services) should contact Larene Wyss, Office of Human Resources at (801) 536-4284, Telecommunications Relay Service 711, or by email at "lwys@utah.gov".
