The Director of the Division Waste Management and Radiation Control is seeking public comment on a modification to the Dunn Construction Five Mile Pass Class VI Landfill Permit. The wastes permitted for disposal include construction and demolition waste, concrete, bricks and other masonry materials, soil and rock, waste asphalt, concrete containing rebar, untreated wood and tree stumps.

The permit modification request has been reviewed and determined to be complete and compliant with the Utah Solid Waste Permitting and Management Rules. A draft permit modification has been prepared.
