## NOTICE

The Director of the Division of Waste Management and Radiation Control invites comment from the public on a Site Management Plan (SMP) for MJK Custom Manufacturing and Coatings, in Ogden, Utah. Soil contamination is present in two areas at the MJK facility. The contamination meets industrial land use standards, but does not meet the residential land use standards of Utah Administrative Code (UAC) R315-101. The SMP therefore restricts land use to industrial activities and requires tracking and proper management of any contaminated soil that may be moved onsite or removed from the property. An Environmental Covenant and other property related notices are also required.

The public comment period for the SMP begins January 17, 2018 and ends February 15, 2018. A public hearing may be held if, within 15 days of publication of this notice, a request is made to the Director in writing which meets the requirements of UAC R315-311-3.

Documents related to SMP proposal can be reviewed at the following location:

Division of Waste Management and Radiation Control  
Multi Agency State Office Building  
195 North 1950 West, 2<sup>nd</sup> Floor  
Salt Lake City, Utah

For public convenience, an unofficial copy of the SMP is available on the Internet at:

<http://www.deq.utah.gov/NewsNotices/notices/waste/index.htm>

Written comments will be accepted if received by 5:00 p.m. on February 15, 2018 and should be submitted to the address below. Comments can also be hand delivered to the address above, and must be received by 5:00 p.m. on February 15, 2018.

Comments can also be sent by email to: '[swpublic@utah.gov](mailto:swpublic@utah.gov)'. Emailed comments should be identified by putting the following in the subject line: public comment on MJK SMP. All attached documents should be in ASCII (text) or pdf format.

Under Utah Code Section 19-1-30.5, a person who wishes to challenge a decision may only raise an issue or argument during an adjudicatory proceeding that was raised during the comment period and was supported by sufficient information to documentation to allow the Director to fully consider the substance and significance of the issue.
