

UTAH HAZARDOUS WASTE POST-CLOSURE PERMIT

FOR POST-CLOSURE OF THE WASTE DISPOSAL CELL
AND FACILITY WIDE CORRECTIVE ACTION

FOR

The Former Pennzoil Roosevelt Refinery
The Pennzoil - Quaker State Company d.b.a. SOPUS Products
EPA# UTD073093874

Duchesne County, Utah

Original Permit: December 18, 1992
Permit Renewal: June 11, 2004
Permit Modification: August 10, 2009

Permit Renewal: September 30, 2014
Permit Modification: July 26, 2019

STATE OF UTAH PLAN APPROVAL

Effective Date: September 30, 2014

PERMITTEES:

Pennzoil – Quaker State Company
and
Roosevelt Land Investment, LLC

Duchesne County, Utah
EPA Identification Number UTD073093874

Pursuant to the Utah Solid and Hazardous Waste Act, 19-6-101, et. seq., Utah Code Annotated 1953, as amended, and the regulations promulgated thereunder by the Utah Waste Management and Radiation Control Board, codified in the Utah Administrative Code R315, and pursuant to the Solid Waste Disposal Act, 42 U.S.C. 3251 et. seq., as amended by the Resource Conservation and Recovery Act of 1976, 42 U.S.C. 6901 et. seq., and the Hazardous and Solid Waste Amendments of 1984 (HSWA), a plan approval (hereinafter called a permit), is issued to the Pennzoil-Quaker State Company and Roosevelt Land Investment, Inc. (herein after called the “Permittees”), for post-closure care of the waste disposal cell and facility-wide corrective action at the Former Pennzoil Roosevelt Refinery, Duchesne County, Utah, at latitude 40° 16’ 48” North and longitude 110° 01’ 02” West.

The Permittees shall comply with all the terms and conditions of this permit. The permit consists of Modules I through VI and Attachments 1 through 6. The Permittees must comply with all applicable State rules including Utah Admin. Code R315-15, 17, 101, 102, 103, and 260 through 320.

Applicable rules are those which are in effect on the date of issuance of this permit, including rules in effect that relate to portions of the permit that are modified on July 26, 2019, and any self-implementing provisions and related rules which, according to the requirements of HSWA, are automatically applicable to the Permittees’ hazardous waste management activities, notwithstanding the conditions of this permit.

This permit is based on the premise that the information submitted for the original permit which was issued on December 18, 1992, as modified by the submission of subsequent amendments, permit modification requests received throughout the term of the original permit, and the permit renewal application received January 9, 2014, as modified by submission of subsequent amendments is accurate. The Permittees’ failure in the application or during the permit issuance process to disclose fully all relevant facts, or the Permittees’ misrepresentation of any relevant facts at any time, shall be cause for the termination or modification of this permit, the initiation of enforcement action, including criminal proceedings, or any combination of these remedies. The Permittees shall inform the Director of the Division of Waste Management and Radiation

Control of any deviation from or changes in the information on which the application was based which would affect the Permittees' ability to comply with the terms and conditions of this permit. The Director will enforce all terms and conditions of this permit. Any challenges to any condition of this permit shall be appealed in accordance with the applicable provisions of the Utah Code Annotated and applicable administrative rules.

This permit was effective on September 30, 2014 and shall remain in effect until September 30, 2024, unless revoked and reissued, pursuant to Utah Admin. Code R315-270-41 or terminated, pursuant to Utah Admin. Code R315-270-43 or continued in accordance with Utah Admin. Code R315-270-51 and the conditions of this permit.

DEFINITIONS

For purposes of this permit, terms used herein shall have the same meaning as those in Utah Administrative Code (Utah Admin. Code) R315, unless this permit specifically provides otherwise; where terms are not defined in the regulations or the permit, the meaning associated with such terms shall be defined by a standard dictionary reference or the generally accepted scientific or industrial meaning of the term.

Act shall mean the Utah Solid and Hazardous Waste Act, Utah Code Annotated 19-6-101 et seq.

Board shall mean the Utah Waste Management and Radiation Control Board.

Day(s) shall mean sequential calendar days.

Director shall mean the Director of the Division of Waste Management and Radiation Control.

Division shall mean the Division of Waste Management and Radiation Control of the Utah Department of Environmental Quality.

Facility shall mean all contiguous land and structures and other appurtenances and improvements on the land used for treating, storing, or disposing of hazardous waste. A facility may consist of several treatment, storage, and disposal operational units (e.g., one or more landfills, surface impoundments, or combinations of them).

Groundwater Treatment System shall mean all the parts of the system that are used to extract, treat or inject groundwater.

Hazardous waste constituent shall mean a constituent that caused the Board to list the hazardous waste in Utah Admin. Code R315-261-1 through 33 and R315-261-1092 Appendix VIII.

Precipitation shall mean rain, snow, sleet, or hail.

Release shall mean any spilling, leaking, pouring, emitting, emptying, discharging, injecting, pumping, escaping, leaching, dumping, or disposing of hazardous wastes (including hazardous waste constituents) into the environment.

Solid Waste Management Unit (SWMU) shall mean any discernible unit at which solid wastes have been placed at any time, irrespective of whether the unit was intended for the management of solid or hazardous waste. Such units include any area at a facility at which solid wastes have been routinely and systematically managed.

Submit or Submission shall mean to be received by hand delivery, mail, certified mail, express mail, or facsimile and logged in at the offices of the Division of Waste Management and Radiation Control.

Surface impoundment or impoundment shall mean a facility or part of a facility which is a natural topographic depression, man-made excavation, or diked area formed primarily of earthen materials (although it may be lined with man-made materials), which is designed to hold an accumulation of liquid waste or waste containing free liquids, and is not an injection well. Examples of surface impoundments are holding, storing, settling, and aeration pits, ponds and lagoons.

All definitions contained in applicable sections of Utah Admin. Code R315 are hereby incorporated, in their entirety, by reference into this permit, except that any of the definitions used above shall supersede any definition of the same term stated in Utah Admin. Code R315.
