NOTICE OF PUBLIC COMMENT ON

Sunnyside Cogeneration Associates  
Coal Combustion Residual (CCR) Ash #2 Landfill

Sunnyside Cogeneration Associates (SCA) submitted a permit application for the Sunnyside Power Generation Facility Coal Combustion Residual (CCR), Ash #2 Landfill located approximately one mile southeast of the generation facility on property owned by SCA at Sunnyside, Utah in Carbon County. The permit application has been reviewed by the Division of Waste Management and Radiation Control and has been determined to be complete and in compliance with the Utah Solid Waste Permitting and Management Rules. A DRAFT Permit has been prepared by the Director of the Division of Waste Management and Radiation Control. The Director of the Division of Waste Management and Radiation Control is seeking public comment on the DRAFT Permit. The CCR unit will receive site-generated non-hazardous industrial CCR waste from the Sunnyside Power Generation Facility.

The public comment period on the DRAFT Permit begins October 21, 2020 and will end November 20, 2020. If a public hearing is warranted, a date and time with information will be issued.

For the public's convenience, an unofficial copy of the application and the draft permit is available on the Internet at:
