

**Permittee:**

**United States Department of the Army  
Tooele Army Depot – North Area  
UT3213820894**

**State/EPA I.D. Number:**

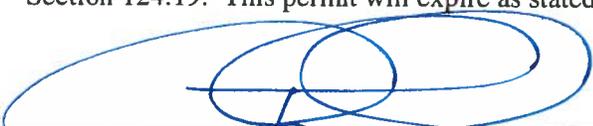

Pursuant to the Solid and Hazardous Waste Act, 19-6-101, et. seq., Utah Code Annotated, 1953, as amended, and the regulations promulgated thereunder by the Utah Solid and Hazardous Waste Control Board (now the Waste Management and Radiation Control Board) (the Board), codified in the Utah Administrative Code R315 (R315), and pursuant to the Solid Waste Disposal Act (42 U.S.C. 3251 et. seq.), as amended by the Resource Conservation and Recovery Act of 1976 (42 U.S.C. 6901 et. seq., RCRA) and the Hazardous and Solid Waste Amendments of 1984 (HSWA), a permit is issued to the United States Department of the Army, Tooele Army Depot – North Area (Facility Owner, Operator) to operate a hazardous waste treatment and storage facility located approximately three miles south of Tooele, on State Highway 36, in Tooele County, Utah, at latitude 40° 30' 00" North and longitude 112° 20' 00" West.

This Permit is effective as of the date of signature below. The Permittee shall comply with all terms and conditions of this permit and its attachments. The Permittee shall comply with all applicable State regulations, including R315-101, 102, 124, 260 through 264, 266, 268, 270 and R305-7.

Applicable State regulations are those which are in effect on the date of final administrative action on this permit and any self-implementing statutory provisions and related regulations which, according to the requirements of HSWA, are automatically applicable to the Permittee's hazardous waste management activities, notwithstanding the conditions of this permit.

The Permittee's failure in the application or during the permit issuance process to disclose fully all relevant facts, or the Permittee's misrepresentation of any relevant facts at any time, shall be grounds for the termination or modification of this permit and/or initiation of an enforcement action, including criminal proceedings. The Permittee must inform the Director of the Division of Waste Management and Radiation Control (Director) of any deviation from the permit conditions or changes in the information on which the application is based which would affect the Permittee's ability to comply, or actual compliance with the applicable regulations or permit conditions or which alters any condition of this permit in any way. The Director shall enforce all conditions of this permit, which are designated in this permit as State requirements. Any challenges to any permit condition that concern State requirements shall be appealed to the Board in accordance with the Utah Code Annotated and applicable administrative rules.

The United States Environmental Protection Agency (Agency) may issue a separate permit based on federal regulations promulgated under HSWA that have not been adopted by the State of Utah and have not been included in the State's authorized program. The Agency shall maintain an oversight role of the State authorized program and in such capacity shall enforce any permit condition based on State requirements if, in the Agency's judgement, the Director should fail to enforce that permit condition, except that in no case shall the Agency enforce any permit condition designated as a State requirement only and a permit condition that the Agency has determined to be broader in scope than the federal RCRA regulations (i.e., there is no federal counterpart to the State rule). Any challenges to the Agency enforced conditions shall be appealed to the Agency in accordance with 40 Code of Federal Regulations (CFR), Section 124.19. This permit will expire as stated in Permit Condition I.H.
