RE: Wayne County Long Hollow Class II Landfill Permit

Dear Commissioner Wood:

Enclosed is Permit No. 9416R2 for the Wayne County Long Hollow Class II landfill. A 30-day public comment period regarding renewal of this permit was held from August 20, 2015 to September 21, 2015. No comments were received.

This Permit expires on October 1, 2025. Please note that R315-311-1(4)(a) of the Utah Administrative Code requires an application for renewal 180 days before the expiration date.

Representatives of the Division of Waste Management and Radiation Control or the Central Utah District Health Department will conduct periodic inspections to assess compliance with the conditions of the Permit and the Solid Waste Permitting and Management Rules.

If you have any questions, please call Rob Powers at (801) 536-0255.

Sincerely,

Scott T. Anderson, Director
Division of Waste Management and Radiation Control

**DIVISION OF WASTE MANAGEMENT AND RADIATION CONTROL
CLASS II SOLID WASTE PERMIT RENEWAL**

WAYNE COUNTY LONG HOLLOW LANDFILL

Pursuant to the provisions of the *Utah Solid and Hazardous Waste Act*, Title 19, Chapter 6, Part 1, Utah Code Annotated (Utah Code Ann.) (the Act) and the *Utah Solid Waste Permitting and Management Rules*, Utah Administrative Code R315-301 through 320 adopted thereunder, a Permit is issued to

Wayne County as owner and operator

to own, construct and operate the Long-Hollow Class II Landfill located in the northwest 1/4 section of Section 22, Township 28 south, Range 2 east, Salt Lake Base and Meridian, Wayne County, Utah as shown in the Permit Renewal Application that was determined complete on July 14, 2015,(DSHW-2015-006846).

The Permittee is subject to the requirements of R315-301 through 320 of the Utah Administrative Code and the requirements set forth herein.

All references to R315-301 through 320 of the Utah Administrative Code are to regulations that are in effect on the date that this Permit becomes effective.

This Permit shall become effective October 1, 2015.

This Permit shall expire at midnight September 30, 2025.

Closure Cost Revision Date: October 1, 2020.

Signed this 28th day of September, 2015.

Scott T. Anderson, Director
Division Waste Management and Radiation Control

FACILITY OWNER/OPERATOR INFORMATION

LANDFILL NAME: Wayne County Long-Hollow Class II Landfill

OWNER NAME: Wayne County

OWNER ADDRESS: 18 South Main Street
P O Box 189
Loa, Utah 84747

OWNER PHONE NO.: (435) 691-2228

TYPE OF PERMIT: Class II Landfill

PERMIT NUMBER: 9416R2

LOCATION: Landfill site is located in Township 28 south, Range 02 east, Sections 21, 22, SLMB; Wayne County, Lat. 38° 21' 57", Long. 111° 41' 17"

PERMIT HISTORY Permit renewal signed September 28, 2015.

The term "Permit" is defined in R315-301-2(55) of the Utah Administrative Code. The term "Director" as used throughout this Permit refers to the Director of the Division of Waste Management and Radiation Control.

Attachments to this Permit are hereby incorporated into this Permit. All representations made in the attachments are incorporated as part of this Permit and are enforceable under R315-301-5 of the Utah Administrative Code. Where differences in wording exist between this Permit and the attachments, the wording of this Permit supersedes that of the attachments.

This Permit consists of the signature page, Facility Owner/Operator Information section, Sections I through V and Attachments.

The facility as described in this Permit consists of a Class II waste disposal cell, a construction and demolition waste cell, a green waste area, a waste tire area, scrap metal area and a dead animal trench.

Compliance with this Permit does not constitute a defense to actions brought under any other local, state or federal laws. This Permit does not exempt the Permittee from obtaining any other local, state or federal permits or approvals required for operation of the landfill.

The issuance of this Permit does not convey any property rights, other than the rights inherent in this Permit, in either real or personal property, or any exclusive privileges other than those inherent in this Permit. This Permit does not authorize any injury to private property or any invasion of

personal rights, or any infringement of federal, state or local laws or regulations, including zoning ordinances.

The provisions of this Permit are severable. If any provision of this Permit is held invalid for any reason, the remaining provisions shall remain in full force and effect. If the application of any provision of this Permit to any circumstance is held invalid, its application to other circumstances shall not be affected.

By this Permit, the Permittee is subject to the following conditions.

I. GENERAL COMPLIANCE RESPONSIBILITIES

A. General Operation

The Permittee shall operate the landfill in accordance with all applicable requirements of R315-301 through 320 of the Utah Administrative Code for a Class II landfill that are in effect as of the date of this Permit unless otherwise noted in this Permit. Any permit noncompliance or noncompliance with any applicable portions of Utah Code Ann. § 19-6-101 through -125 and applicable portions of R315-301 through 320 of the Utah Administrative Code constitutes a violation of the Permit or applicable statute or rule and is grounds for appropriate enforcement action, permit revocation, modification or denial of a permit renewal application.

B. Acceptable Waste

This Permit is for the disposal of non-hazardous solid waste that include:

1. Municipal solid waste as defined by R315-301-2(47) of the Utah Administrative Code;
2. Commercial waste as defined by R315-301-2(14) of the Utah Administrative Code;
3. Industrial waste as defined by R315-301-2(35) of the Utah Administrative Code;
4. Construction/demolition waste as defined by 19-6-102(4), Utah Code Annotated and R315-301-2(17) of the Utah Administrative Code;
5. Special waste as allowed by R315-315 of the Utah Administrative Code and authorized in Section III-I of this Permit; and
6. Conditionally exempt small quantity generator hazardous waste as specified in R315-303-4(7)(a)(i)(B) of the Utah Administrative Code.

C. Prohibited Waste

1. Hazardous waste as defined by R315-1 and R315-2 of the Utah Administrative Code except as authorized by Permit Condition I.B.6 (Acceptable Waste);
2. Containers larger than household size (five gallons) holding any liquid, non-containerized material containing free liquids, or any waste containing free liquids in containers larger than five gallons; and
3. PCBs as defined by R315-301-2(53) of the Utah Administrative Code, except as authorized by in Section I.B (Acceptable Waste) of this Permit.

Any prohibited waste received and accepted for treatment, storage or disposal at the facility shall constitute a violation of this Permit, of Utah Code Ann. § 19-6-101 through 125 and of R315-301 through 320 of the Utah Administrative Code.

D. Inspections and Inspection Access

The Permittee shall allow the Director of the Division of Waste Management and Radiation Control or an authorized representative of the Director or representatives from the Central Utah Health Department to enter at reasonable times and:

1. Inspect the landfill or other premises, practices or operations regulated or required under the terms and conditions of this Permit or R315-301 through 320 of the Utah Administrative Code;
2. Have access to and copy any records required to be kept under the terms and conditions of this Permit or R315-301 through 320 of the Utah Administrative Code;
3. Inspect any loads of waste, treatment facilities or processes, pollution management facilities or processes, or control facilities or processes required under this Permit or regulated under R315-301 through 320 of the Utah Administrative Code; and
4. Create a record of any inspection by photographic, video, electronic, or any other reasonable means.

E. Noncompliance

If monitoring, inspection or testing indicates that any permit condition or any applicable rule under R315-301 through 320 of the Utah Administrative Code may be or is being violated, the Permittee shall promptly make corrections to the operation or other activities to bring the facility into compliance with all permit conditions or rules.

In the event of noncompliance with any permit condition or violation of an applicable rule, the Permittee shall promptly take any action reasonably necessary to correct the noncompliance or violation and mitigate any risk to the human health or the environment. Actions may include eliminating the activity causing the noncompliance or violation and containment of any waste or contamination using barriers or access restrictions, placing of warning signs or permanently closing areas of the facility.

The Permittee shall:

1. Document the noncompliance or violation in the daily operating record, including the day the event occurred or the day it was discovered;
2. Notify the Director by telephone within 24 hours or the next business day following documentation of the event; and
3. Submit to the Director within 30 days a written report describing the nature and extent of the noncompliance or violation and the remedial measures implemented to protect human health and the environment and to eliminate the noncompliance or violation.

Upon receipt and review of the assessment report, the Director may order the Permittee to perform appropriate remedial measures including development of a site remediation plan for approval by the Director.

In an enforcement action, the Permittee may not claim as a defense that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with R315-301 through 320 of the Utah Administrative Code and this Permit.

F. Revocation

This Permit may be revoked if the Permittee fails to comply with any condition of the Permit. The Director will notify the Permittee in writing prior to any proposed revocation and such action shall be subject to all applicable hearing procedures established under R305-7 of the Utah Administrative Code and the Utah Administrative Procedures Act.

G. Attachment Incorporation

Attachments to this Permit are incorporated by reference into this Permit and are enforceable conditions of this Permit, as are documents incorporated by reference into the attachments. Language in this Permit supersedes any conflicting language in the attachments or documents incorporated into the attachments.

II. DESIGN AND CONSTRUCTION

A. Design and Construction

The Permittee shall construct any landfill cell, sub-cell, run-on diversion system, runoff containment system, waste treatment facility, leachate handling system or final cover in accordance with the design submitted in accordance with the R315-301 through 320 of the Utah Administrative Code and Attachment 1.

The Permittee shall notify the Director upon completion of construction of any landfill cell, sub-cell, engineered control system or any feature where Director approval is required. No landfill cell or engineered control system may be used until as-built documents are submitted and construction is approved by the Director.

The Permittee shall notify the Director of any proposed incremental closure, placement of any part of the final cover or placement of the full final cover and shall be accompanied by a Construction Quality Control and Construction Quality Assurance (CQC/CQA) Plan.

A qualified party, independent of the owner and the construction contractor, shall perform the quality assurance function on cover components and other testing as required by the approved CQC/CQA Plan. The results shall be submitted as part of the as-built drawings to the Director.

All engineering drawings submitted to the Director shall be stamped and approved by a professional engineer with a current registration in Utah.

B. Run-On and Run-Off Control

The Permittee shall construct drainage channels and diversions as specified in Attachment 1 and shall maintain them at all times to effectively prevent runoff from the surrounding area from entering the landfill.

C. Alternative Design

This facility has demonstrated through geologic, hydrogeologic, climatic, waste stream and other factors that the landfill will not contaminate ground water and is approved for the alternative design as outlined in the Geohydrological Assessment in Attachment 2. Any contamination of ground water resulting from operation of the landfill may result in the revocation of this alternative design approval.
