Re: Transmittal White Mesa Uranium Mill Reclamation Plan, Revision 5.1B

Dear Mr. Anderson:

Attached please find two hard copies and the associated electronic copies of the Energy Fuels Resources (USA) Inc. ("EFRI") White Mesa Mill (the "Mill") Reclamation Plan, Revision 5.1B. Hard copies of the redline and clean versions of the modified sections are included for your convenience. Electronic copies of the redline versions of the modified sections and the clean version of the entire Reclamation Plan are provided.

EFRI prepared this Revision 5.1B to address select public comments on the Mill's Groundwater Discharge Permit and Radioactive Materials License. EFRI responses to public comments were documented in the EFRI letter dated October 23, 2017 and an updated Section 6 of the Main Text to Revision 5.1 of the Plan was provided as an attachment to the October 23, 2017 letter. Reclamation Plan 5.1B, Attachment A (Technical Specifications) and the remaining Main Text sections have also been updated with minor revisions to address public comments and for consistency. The remaining attachments and appendices do not require revisions and therefore the designation of Revision 5.1 or reference to Revision 5.1 remain to indicate changes have not been made to these components of the Plan.

If you should have any questions regarding this transmittal please contact me at 303-389-4134.

Yours very truly,

ENERGY FUELS RESOURCES (USA) INC.
