NOTICE OF PUBLIC COMMENT ON  
EnergySolutions LLC  
Mixed Waste Facility  
UTD982598898

**Request for a Site-Specific Treatment Variance for Mixed Waste Requiring Treatment with a PCB Underlying Hazardous Constituent**

EnergySolutions requests approval to treat waste containing hazardous contaminants and PCBs then dispose of the treated residual in EnergySolutions' Clive Facility Mixed Waste Landfill Cell (MWLC). The concentration of PCBs within the treated residual will not meet the Universal Treatment Standards (UTS) described in R315-13-1 (40 CFR 268.48 incorporated by reference). All actions requested in this variance will be performed in accordance with EnergySolutions' state-issued Part B Permit.

This variance is being requested for up to approximately 12 tons of site-generated waste at the Clive Mixed Waste Facility that may be circumstantially contaminated with PCBs from operations at the site. Examples of site-generated wastes include baghouse dust, sump clean-out material, and decontamination sludges. Site activities involving PCBs include, but are not limited to, repackaging waste containers and shredding PCB capacitors. Analysis of site-generated waste over the last year has detected PCB concentrations up to 19.4 ppm (mg/kg) which is above the UTS concentration for PCBs of 10 mg/kg.

This type of waste has been generated and successfully treated in the past at the Clive Facility. Treatment formulas have been developed and analytical data has demonstrated that all contaminants, except PCBs, met treatment standards in these treatment runs. EnergySolutions has compiled data demonstrating that the developed treatment formulas for the site-generated wastes have successfully treated these waste streams.

The MWLC is a regulated hazardous waste landfill permitted by the State of Utah. Consequently, if the PCB waste did not contain RCRA hazardous waste codes, but contained the same PCB concentrations, it could be disposed in the MWLC or LLRW without additional treatment. Therefore, treatment of the PCBs within this waste stream is technically inappropriate and not required for final disposal of the waste form.

Final disposal of the waste will occur in the Mixed Waste Disposal Cell at the EnergySolutions' Mixed Waste Facility.

The 30-day public comment period to receive comments on this Treatment Variance Request will commence on Thursday, February 2, 2023 and end on Friday, March 3, 2023. A public hearing on these issues will be held upon request.

Documents related to this application can be reviewed on the Internet at:

<https://deq.utah.gov/waste-management-and-radiation-control/waste-management-radiation-control-public-notice>

Written comments will be accepted if received by 5:00 p.m. on March 3, 2023. Comments should be submitted to the address below or by electronic mail as detailed below.

Douglas J. Hansen, Director  
Division of Waste Management and Radiation Control  
Department of Environmental Quality  
P.O. Box 144880

Comments can also be sent by electronic mail to: [dwmrcpublic@utah.gov](mailto:dwmrcpublic@utah.gov). Comments sent in electronic format should be identified by putting the following in the subject line: public comment on Treatment Variance Request. All documents included in comments should be submitted as ASCII (text) files or in pdf format.

Under Utah Code Section 19-1-301.5 a person who wishes to challenge a Permit Order may only raise an issue or argument during an adjudicatory proceeding that was raised during the public comment period and was supported with sufficient information or documentation to enable the director to fully consider the substance and significance of the issue.

For further information contact Tyler Hegburg of the Division of Waste Management and Radiation Control at (801) 536-4271. In compliance with the Americans with Disabilities Act, individuals with special needs (including auxiliary communicative aids and services) should contact Larene Wyss, Office of Human Resources at (801) 503-5618, Telecommunications Relay Service 711, or by email at [lwyss@utah.gov](mailto:lwyss@utah.gov).
