UTAH DEPARTMENT OF ENVIRONMENTAL QUALITY

NOTICE OF PUBLIC COMMENT ON
Fish Springs National Wildlife Refuge (NWR) Class II Landfill

The Fish Springs Class II Landfill facility is located within the legal boundaries of the Fish Springs NWR, located in the western half of Juab County, Utah. The refuge encompasses 18,000 acres and is remote from waste management services. This landfill serves about 15 employees in the summer months and about 9 in the winter, as well as trash collected from public trash cans at various points on the refuge.

Fish Spring has requested a renewal of their solid waste permit to operate this landfill. The proposed permit application has been reviewed and has been determined to be complete and in compliance with the Utah Solid Waste Permitting and Management Rules. The renewed permit will allow the Fish Springs Class II Landfill to continue to operate for ten years after it has been approved.

A 30-day public comment period to receive comments on the draft permit will commence on Thursday, May 2, 2022 and end at 5 p.m. on Friday, May 31, 2022.

Documents related to this application can be reviewed at the Division of Waste Management and Radiation Control Public Notices web site at:

<https://deq.utah.gov/public-notices-archive/waste-management-radiation-control-public-notices>

If further information or assistance in obtaining a copy of documents is required, contact Roy Van Os at (801) 536-0245.

Written comments will be accepted if received by 5:00 p.m. on May 31, 2022. Written comments must be directed to the following address:
