# 2023 Hazardous Waste Generator Training

UTAH DEPARTMENT of  
ENVIRONMENTAL QUALITY  
**WASTE MANAGEMENT  
& RADIATION CONTROL**

---

# Legal Disclaimer

This presentation is solely for educational purposes and provides a general description of the RCRA Hazardous Waste Rules. Relevant state and federal statutes and regulations provide specific requirements that may be applicable to a site-specific situation.

Nothing in this presentation constitutes agency or legal advice and should not be construed as such, nor as an agency decision related to a specific matter for which the agency has yet to make a final determination. For site-specific assistance, individuals should consult with the agency that retains jurisdiction over the management of hazardous waste for the site.

## **HAZARDOUS WASTE GENERATOR TRAINING 2023 AGENDA – MAY 22<sup>ND</sup>**

### **SECTION 1:**

Zoom Webinar Logistics	Kari Lundeen
Welcome	Doug Hansen
DWMRC Overview and Introductions	Deborah Ng
Wastewater Pretreatment for HW Generators	Jennifer Robinson

### **SECTION 2:**

Waste Counting	Craig Jorgensen
Very Small Quantity Generators   Small Quantity Generators  Large Quantity Generators and LQG Closure	Craig Jorgensen & Sally Kaiser

### **SECTION 3:**

Episodic Generation	Sally Kaiser
Point of Generation   Waste Determination	Judy Moran
e-Manifest   EPA ID#s   Best Practices   8700-12 Form Contractors   Cogeneration	Kaci McNeill & Judy Moran

### **SECTION 4:**

Universal Waste   E-waste	Craig Jorgensen
Incident Reporting   Treatment & Emergency Permits	Gabrielle Marinick
Used Oil Generator Requirements	Leo Calcagno
Inspection Process   Enforcement Process	Judy Moran
Container Inspections   Top 10 Issues	Craig Jorgensen

## **HAZARDOUS WASTE GENERATOR TRAINING AGENDA – MAY 23<sup>RD</sup>**

### **SECTION 1:**

Zoom Webinar Logistics  
Transporters  
Manifests | LDR Forms | Working with your Transporter  
Shipping your Waste

Kari Lundeen  
Gabrielle Marinick  
Adam Wingate

### **SECTION 2:**

Solid Waste | Recycling  
Hazardous Secondary Materials, Exemptions  
& Exclusions

Brian Speer  
Judy Moran  
& Sally Kaiser

### **SECTION 3:**

Contingency Plans  
RCRA Training Requirements  
Environmental Justice

Gabrielle Marinick

## Hazardous Waste Management Program

The Division provides an outreach program for small businesses that generate less than 2,200 pounds of hazardous waste per month. This program has been successful in helping small businesses understand the requirements necessary for compliance with the hazardous waste management rules specific to small business.

Each year approximately 50 companies are visited using this program. A [checklist](#) is provided to assist the company with their hazardous waste management practices. Additionally, [hazardous waste inspection checklists](#), factsheets, and other information to help your company ensure compliance with the regulations can be found in this page's left menu. Hazardous waste staff are available to answer questions: (801) 536-0200.

In conjunction with the outreach program, Judy Moran ([jmoran@utah.gov](mailto:jmoran@utah.gov)), (385) 499-0184 or Erika Greenwell ([egreenwell@utah.gov](mailto:egreenwell@utah.gov)), (385) 499-0346 will provide basic hazardous waste training sessions (about two hours) for businesses. They also provide presentations on hazardous waste management and pollution prevention for schools (all levels) and community groups.

## Outreach and Training: Used Oil Program

### Past Used Oil Training

2023 

On April 25th and 26th, 2023, the Utah Division of Waste Management and Radiation Control hosted a day-and-a-half virtual training on used oil. The training was to familiarize attendees with the applicable used oil regulations in R315-15 of the Utah Administrative Code.
