

# Stakeholder Meeting Oil and Gas Industry Waste

April 17, 2024

The Division of Waste Management and Radiation Control, in coordination with the Division of Oil Gas & Mining, is hosting a Stakeholder meeting to discuss draft rules that ensure proper management of solid wastes from the oil and gas industry and meet federal and state program requirements of protecting human health and the environment.

The meeting is intended to initiate discussions and engagement in an informal draft rule process that precedes a formal rulemaking comment period that will occur later this year.

An electronic copy of the draft rules can be found on our website at:  
<https://deq.utah.gov/waste-management-and-radiation-control/e-and-p-waste-management>

The meeting will be hybrid to accommodate both in-person and virtual attendance. Following our brief presentation, we will hold a question and answer (Q&A) session.

**Meeting Time: April 17, 2024, 1:00 pm – 3:00 pm**

## Participate in Person

Utah Department of Environmental Quality (DEQ)

195 North 1950 West  
Room 1015  
Salt Lake City, UT 84116
