NOTICE OF PUBLIC COMMENT ON  
EnergySolutions LLC  
Mixed Waste Facility

**Treatment Variance Request for Wastes Containing Uranium Extraction Residue**

The public comment period to receive comments on these Treatment Variance Requests will commence on February 10, 2021 and end on March 11, 2021. A public hearing on these issues will be held upon request.

The Mixed Waste Facility proposes to receive cemented monoliths containing uranium extraction residuals. This material retains hazardous waste codes for barium, cadmium, chromium, lead, and spent solvents. The generator has encapsulated the waste in concrete for safety and security reasons.

EnergySolutions proposes to receive this waste for macroencapsulation in the Mixed Waste Landfill Cell rather than chemical stabilization, as required. This request is based on the fact that the waste has already been encapsulated in concrete at the generator's facility. Treating this waste by the required method would mean grinding the waste and potentially exposing workers to unnecessary contamination.

The proposed treatment will further encapsulate the waste and protect it from contact with precipitation, thereby decreasing the potential of leaching and would ensure protection of public health and the environment.

EnergySolutions approximates it may receive up to 1,000 cubic feet of this waste.

Final disposal of the waste will occur in the Mixed Waste Disposal Cell at the EnergySolutions Mixed Waste Facility.

The 30-day public comment period to receive comments on the proposed action will commence on February 10, 2021 and end on March 11, 2021. A public hearing on these issues will be held upon request.

Documents related to this application can be reviewed on the Internet at <https://deq.utah.gov/waste-management-and-radiation-control/waste-management-radiation-control-public-notice>

Written comments will be accepted if received by 5:00 p.m. on March 11, 2021. Comments should be submitted to the address below or by electronic mail as detailed below.

Ty L. Howard, Director  
Division of Waste Management and Radiation Control  
Department of Environmental Quality  
P.O. Box 144880  
Salt Lake City, UT 84114-4880

Comments can also be sent by electronic mail to: [dwmrcpublic@utah.gov](mailto:dwmrcpublic@utah.gov). Comments sent in electronic format should be identified by putting the following in the subject line: Public comment on EnergySolutions Treatment Variance Request. All documents included in comments should be submitted as ASCII (text) files or in pdf format.

Under Utah Code Section 19-1-301.5 a person who wishes to challenge a Permit Order may only raise an issue or argument during an adjudicatory proceeding that was raised during the public comment period and was supported with sufficient information or documentation to enable the director to fully consider the substance and significance of the issue.

For further information contact Otis Willoughby of the Division of Waste Management and Radiation Control at (801) 536-0220. In compliance with the Americans with Disabilities Act, individuals with special needs (including auxiliary communicative aids and services) should contact Larene Wyss, Office of Human Resources at (801) 536-4284, Telecommunications Relay Service 711, or by email at "[lwys@utah.gov](mailto:lwys@utah.gov)".
