DRAFT

UTAH DEPARTMENT *of*
ENVIRONMENTAL QUALITY
WASTE MANAGEMENT
& RADIATION CONTROL

These flowcharts provide a simplified comparison between the current EA Rule under Utah Admin Code (UAC) R313-24-3 and the proposed draft EA rule.

Current EA Rule

An application for a new license, renewal, or major amendment is prepared by the applicant.

↓

The applicant shall prepare an Environmental Report (ER) that addresses R313-24-3(a) - (d).

↓

The Division performs a review and analysis.

↓

The Director shall provide a written analysis of the ER.

↓

The Director shall engage in public notice and comment process prior to any final agency action.

Proposed EA Rule

An application for a new license, renewal, or major amendment is prepared by the applicant.

↓

The applicant shall submit an Environmental Screening Report (ESR) that addresses R313-24-4(2).

↓

The Director may engage stakeholder process to evaluate the ESR.

↓

Will the proposed action result in a significant impact? (Director determination)

— Yes → The Director shall prepare an Environmental Impact Analysis (EIA) that addresses R313-24-5(a) - (d).

— No → The Environmental Impact Analysis (EIA) under R313-24-5 is not required.

↓

The Director shall engage in public notice and comment process prior to any final agency action.
