# UTAH WASTEWATER OPERATOR CERTIFICATION UTAH WASTEWATER OPERATOR CERTIFICATION

### **COMPREHENSIVE APPLICATION - Page 1**

(Complete Instructions on Page 4)

Complete this application form if you are NOT simply *renewing* or *reinstating* a wastewater operator certification. This completed form for *Exams*, *Change in Status*, or *Reciprocity*, may be printed, but NOT saved. Applications will be processed after the appropriate fee is received and a notarized "Citizen/Alien ID Certification" form is on file with the Division. Mail to: Wastewater Operator Certification, PO Box 144870, SLC UT 84114

## UTAH WASTEWATER OPERATOR CERTIFICATION COUNCIL UTAH WASTEWATER OPERATOR CERTIFICATION

### **COMPREHENSIVE APPLICATION - Page 3**

Attachme	ent A	
Part I – Current supervisor's assessment of operator's qualification	on for certification "With" or "With	nout" restriction **
I,(supervisor's printe	ed name)	(title)
stipulate that	(operator's printed name) is p	presently employed at
	(facility name) and meets the qualification	tion of education
and experience noted below to become certified with a Classification		Grade
certificate restriction.	(Collection / WW Treatment / SLS / WW Lab	(I, II, III, IV)
(With or Without)  Ouglifications for Operator Crades	Analyst / Biosolids / Plant Maintenance Tech)	Authorization halovy
Qualifications for Operator Grades.  General:	**See Supervisor's	Authorization below
<ul> <li>"Qualification Points" means total of years of education and exequivalents. A college "year" is considered 45 quarter hours</li> <li>College-level education must be in a job-related field to be created piob related education at the discretion of the Council.</li> <li>Relevant and specialized operator training may be substituted for equivalent to 1 year of education</li> <li>"Operating Experience" means experience gained in operating which enables the operator to make correct supervisory, operation personnel, water quality, public health, regulatory compliant longevity.</li> <li>Grade I - 13 points required  1. Twelve years education (one point per year). 2. One year operating experience (one point per year). 3. Experience may be substituted for all or any part of the education may not be substituted for experience.</li> <li>Grade II - 14 points required  1. Twelve years education (one point per year) 2. Two years operating experience (one point per year) 3. Up to one year of additional education may be substituted to the education of t</li></ul>	or 30 semester hours of credit. dited. However, partial credit may be for education requirement, where 25 C a wastewater treatment plant or collectrational, safety, and maintenance decire, and wastewater works operation, effect of the discretion of the safety of the s	given for non- CEUs is ction system sions affecting ficiency, and e basis. g experience. basis. experience.
"Direct Responsible Charge (DRC)" means active on-site charge and	• •	
charge is generally a supervisor over wastewater treatment or collection		

"Direct Responsible Charge (DRC)" means active on-site charge and performance of operation duties. The person in direct responsible charge is generally a supervisor over wastewater treatment or collection who independently makes decisions affecting all treatment or system processes during normal operation which may affect the quality, safety, and adequacy of treatment of wastewater discharged from the plant. In cases where only one operator is employed, this operator shall be considered to be in direct responsible charge. (Utah Administrative Code R317-10-4.I.)

Administrative Code R317-10-4.I.)	
C Employee is WW Treatment DRC	**The Supervisor's Authorization (typed or original) indicates that this statement of designation concerning the employee's responsibility as Direct Responsible Charge
C Employee is NOT WW Treatment DRC	(DRC) operator is true as of the date of this application and that the employee meets
C Employee is NOT WW Collection DRC	the requirements for certification as stated in Part I.
○ Employee is WW Collection DRC	Supervisor's Authorization**

### **INSTRUCTIONS - Page 4**

See Below for Details of Information Required to Process Certain Types of Certification Actions

#### **Mandatory Certification Classifications**

Wastewater Treatment I-IV, Collections I-IV, and Small Lagoon Systems I are required certifications for those individuals designated as "direct responsible charge" (DRC). The chief operator must be certified at the same grade as the facility rating.

#### **Voluntary Certification Classifications**

Voluntary testing is now available for Wastewater Laboratory Analyst I-IV, Biosolids Land Applier I-II, and Wastewater Plant Maintenance Technologist I-III.

CRITERIA FOR CERTIFICATION GRADES (Wastewater Treatment, Collection and Small Lagoon System)

Grade	Education (#yrs.)	Experience (#yrs)	Other
I	12	1	no education may substitute for experience
II	12	2	up to 1 yr. relevant education may substitute for equivalent experience
III	12	4	up to 2 yrs. relevant education may substitute for equivalent experience
IV	12	6	up to 2 yrs. relevant education may substitute for equivalent experience

\*If the above experience criteria is not met and documented on the application, a "restricted" certificate would be issued.

Please see R317-10, Certification of Wastewater Works Operators, for more information on certification requirements. More information is available at "Wastewater Operators" link on the <a href="https://deq.utah.gov/water-quality/wastewater">https://deq.utah.gov/water-quality/wastewater</a> website.

**EXAM:** Complete Items A, B, D, E and F of application form, sign, and have supervisor complete Attachment A.

**DIRECT RESPONSIBLE CHARGE (DRC):** Supervisor attests to the operator's DRC status by completing Attachment A. **Not all operators** are required to be certified; only those defined as in "direct responsible charge" (DRC) must be certified at the same grade as the facility rating. Those applicants not meeting the criteria in the box above may still apply for certification, but will be issued **restricted** certificates upon passing the examination.

<u>CHANGE IN STATUS --RESTRICTED TO UNRESTRICTED:</u> Complete Items A, B, D, E, and F of application form, sign, *and* have <u>supervisor complete Attachment A endorsing operator's qualification</u> for a certificate "without restriction."

CHANGE IN STATUS -- RESTRICTED TO UNRESTRICTED with RENEWAL: Must have CEUs on record, or included.

**Restricted certificates** will be issued if the applicant passes the exam, but lacks the experience or education required for a particular grade. Certificates become unrestricted when an application and appropriate fee have been submitted showing the applicant meets minimum education and experience requirements. An *unrestricted* certificate will then be issued. Individuals required to be certified may operate a system with a restricted certificate of the required grade for up to 1 year for Grade I & II facilities, or up to 2 years for Grade III & IV facilities, provided an unrestricted certificate can be obtained at the end of the stipulated period.

**RECIPROCITY:** If you hold a current certification in another state, complete Items A, B, D, E and F of application form (Include a copy of present certificate). If employed in Utah at time of application, wastewater supervisor should complete Attachment A.

A Utah certificate of reciprocity may be issued when an applicant holds a valid certificate issued by a certifying authority with equivalent standards and is currently employed in Utah. Otherwise, a "letter of intent to issue a certificate" may be issued.

RENEWAL: A "simplified" form is now available for renewals. Search "wastewater operator forms" on <a href="https://deq.utah.gov.">https://deq.utah.gov.</a>
Certificates must be renewed each three years and expire on December 31 of the last year of the certificate. Operators considered in DRC must renew by the expiration date for the wastewater works to remain in compliance. Expired (Lapsed) certificates may be "reinstated" within one year after expiration by payment of a reinstatement fee along with the renewal fee. However, all required CEUs must have been accrued before the certificate expired on December 31st.

**REINSTATEMENT:** Allowed up to *one year* after expiration if sufficient CEUs were earned *prior* to expiration.

\*NEW REQUIREMENT: CITIZEN/ALIEN IDENTIFICATION CERTIFICATION: Must have on record, or included.

Send completed application, notarized Citizen/Alien ID form and appropriate fee to:
