

# Utah Wastewater Operator Certification Exams – Extra Session

Week of August 3-7, 2020

Due to the April sessions being cancelled, we are trying to schedule smaller sessions during the week of August 3-7, 2020 to allow for earlier results and reduce the demand on the sessions currently scheduled in October and November. Those dates and locations are posted on the webpage.

Sessions will be held “by appointment only” at some locations where social distancing requirements can be met. They will be scheduled for either “morning” or “afternoon”, depending on the hosting location. The exams may be administered in either “web-based” or “paper-based” format, as the facility can accommodate, and as a trial. Most facilities do not have accommodations to administer the “web-based” exams on a large scale where they can be handled securely. Personal computers, tablets, smart phones, etc., are not allowed to be used for testing. Currently, many locations are only able to host their own employees.

If you wish to participate in this week of testing, use the link [survey here](#) to complete an online survey indicating your preferences for “location”, “Date and Time”, “Classification”, “Grade”, and “web or paper-based” exam. The request will be matched to the Application Form, Citizenship Form, and Testing Fee payment that was previously submitted for the April session, or is received by the Division of Water Quality **prior to the 5 pm application deadline on July 1, 2020**. This is only a “preference” and not a guarantee, since each facility has its limitations. The survey is initially based on information provided by the facilities prior to May 22, 2020 and is subject to change depending on the pandemic situation.

You will be contacted by email (to the email address provided on the preference survey) with further instructions for taking the exams.

All the traditional exams are available:

- Wastewater Treatment (Grades I-IV)
- Collection (Grades I-IV)
- Small Lagoon System (Grade I) (combination of WW Treatment and Collection questions)
- Biosolids Land Application (Grades I-II)
- Wastewater Plant Maintenance (Grades I-III)
- Wastewater Laboratory Analyst (Grades I-IV)

Application Form is available [here](#)

Citizenship / Alien ID certification form is available [here](#)

Online payment exam option is [here](#)
