BACKGROUND

Casper’s Ice Cream, Inc. (Casper’s) is an ice cream manufacturing company that produces novelty products such as ice cream sandwiches and hard ice cream. It is located about 1.5 miles north of Richmond Utah at 11805 North 200 East in Richmond, Utah at latitude 41°58.81’ and longitude 111°49.89’. Casper’s Standard Industrial Classification (SIC) code is 2024, with a North American Industry Classification System (NAICS) Code of 311520 for Ice Cream and Frozen Dessert Manufacturing. Casper’s has two pipes that leave the facility; one contains non-contact cooling water and the other contains process water. Approximately 8,000 gallons of process water is generated per day at the facility. The process water is currently being treated through several grease traps, septic tanks and to an aerated containment pond. Process water will be blended with irrigation and non-contact cooling water then land applied on cropland located east and west of the facility.
