Public notice of modification to the Central Valley Water Reclamation Facility Rules and Local Limits related to the Pretreatment Program delegated by the Division of Water Quality

**PURPOSE OF PUBLIC NOTICE**

The purpose of this public notice is to notify the public of the revision of the previous public notice which occurred from October 10, 2021 until November 24, 2021. The Division of Water Quality is now soliciting public comment regarding modifications to the Central Valley Water Reclamation Facility Rules and local limits for implementing the pretreatment program. These changes are considered substantial modifications of the Central Valley Water Reclamation Facility Pretreatment Program. A review of the changes has occurred, by the Division of Water Quality (DWQ), which found that the changes met the requirements of R317-8-8 and 40 CFR 403. Once the public notice period and comment process are completed it is the intent of DWQ to formally approve the modifications to the rules and local limits for implementation by Central Valley Water Reclamation Facility.
