**PURPOSE OF PUBLIC NOTICE**

The purpose of this public notice is to declare the State of Utah's intention to grant a variance to the implementation deadline for Technology Based Phosphorus Effluent Limit (TBPEL) compliance to Courthouse Wash Water Facility. Pursuant to *UAC R317-1-3.3* and corresponding provisions of the Utah Water Quality Act.

**BACKGROUND**

The Courthouse Wash Water Facility (CWF) is a private wastewater treatment plant that services a local tourism business. CWF submitted a variance request, dated June 26, 2015 to the Utah Division of Water Quality, seeking a variance to the TBPEL implementation date. The Variance Request is based on the fact that CWF contributes a small percent of the phosphorous loading in the Colorado River, which is not currently listed as impaired due to nutrient loading.

**PUBLIC COMMENTS**

Public comments are invited any time prior to the deadline of the close of business on **July 16, 2018**. Written public comments can be submitted to: Jeff Studenka, UPDES Surface Water Section, Utah Division of Water Quality, P.O. After considering public comment the Utah Division of Water Quality may execute the variance, revise it or abandon it. The variance is available for public review under <https://deq.utah.gov/public-notice/water-quality-public-notice>.
