BACKGROUND
Mayflower Mountain Resort is an all seasons resort to be constructed in Park City, Utah. When complete, the 5,600 acre resort will include at least seven ski lifts and will have the capacity to house more than 2,400 residents with new condos, single-family homes, townhomes, and three hotels. The property was purchased in November of 2017 by BLX Mayflower LLC – this property includes both inactive Mayflower and Star Mines, both of which still discharge into waters of the state. In November 2019 a pipe was installed to carry discharge water from the exit of the Mayflower Mine to McHenry Creek. Prior to this pipe, the mine discharge ran through a mine waste impoundment within Big Dutch Peat drainage which flows into Jordanelle Reservoir. The Star of Utah Mine discharge water enters into Glencoe Canyon Creek, which then flows into McHenry Creek. McHenry Creek flows into Jordanelle Reservoir.

PUBLIC COMMENTS
Public comments are invited any time prior to the deadline of the close of business on November 9, 2020. Written public comments can be submitted to: Danielle Lenz, UPDES Surface Water Section, Utah Division of Water Quality, PO Box 144870, Salt Lake City, Utah 84114-4870 or by email at: dlenz@utah.gov. After considering public comment the Utah Division of Water Quality may execute the permit issuance, revise it, or abandon it.
