Park City currently operates the portion of the Spiro Tunnel as a source of potable water for the city. The current drinking water treatment facility, Spiro Water Treatment Plant (SWTP), is located at 1884 Three Kings Drive, in Park City, Summit County, Utah. This facility was shut down for potable purposes in September 2019 and was recently demolished, but will be replaced by the Three Kings Water Treatment Plant (3Kings WTP) which will be located at the same address. During construction of 3Kings WTP the water will be diverted into McLeod Creek via the Park City golf course ditch system.
