BACKGROUND

The applicant is proposing to install two 36-inch diameter sewer lines, following the alignment of the proposed Pony Express Parkway extension. The activity would include the construction of two separate parallel sewer lines that include approximately 18,500 feet of PVC sewer pipe ranging in size from 12" to 48", a jack and bore across Redwood Road, a pre-manufactured truss bridge across the Jordan River. Concrete sewer vaults, a measuring flume vault and associated casing pipes/manholes, engineered dewatering and trench stabilization, bedding, import backfill, testing, surface restoration, and appurtenances.
