The applicant is proposing to complete a new 19.2 mile roadway intended to accommodate the growth of residential and employment-based transportation needs projected for western Davis County, Utah. North of Antelope Drive to its northern terminus, at 4100 West / 1800 North in West Point, the road narrows to a limited access highway with a 146-foot right-of-way. The study area for assessing the need of the project consists of approximately 80,000 acres located west of I-15 in Davis and Weber Counties. There are approximately 43.5 acres of palustrine emergent wetlands and playas and more than 15,000 linear feet of streams and other drainages within the project area. There are also approximately 57.29 acres of wetlands within 300 feet of the proposed right-of-way.
