DIVISION OF WATER QUALITY

§401 WATER QUALITY CERTIFICATION

**PURPOSE OF PUBLIC NOTICE**

The purpose of this public notice is to declare the State of Utah's intention to issue a §401 Water Quality Certification with Conditions under the authority of the Federal Clean Water Act (33 U.S.C. § 1341), and consistent is with the Utah Water Quality Act, Title 19, Chapter 5, Utah Code Ann. 1953, as amended and Utah Administrative Code R317-15

**PERMIT INFORMATION**

PERMITTEE NAME: Utah Division of Wildlife Resources  
MAILING ADDRESS: 1470 North Airport Road, Cedar City, UT 84721  
PROJECT LOCATION: Bowery Haven 38.5617°, -111.7061°; Lakeside 38.5351°,  
-111.7360°  
DWQ CERTIFICATION NO.: DWQ-2019-05001  
WATERCOURSES: Fish Lake

**BACKGROUND**

The applicant is proposing to make improvements to the existing marinas, which may include increasing the number of boat slips by improving or constructing new dikes, constructing new boat ramps, improving and expanding parking lot areas and access roads, constructing stormwater control features, adding pit toilets, and adding electrical conduit for future lighting and charging stations. The existing marina facilities at Lakeside Marina, and Bowery Haven Marina are not able to meet current demand based on number of visitors and size of boats. The facilities are in poor condition and present safety hazards for those who use them. The existing launch ramps are deteriorating, which creates unsafe conditions and may damage boat trailers. Many of the docks are narrow and made of wood; this results in unstable and slippery conditions, and high maintenance efforts. Many dock anchor points are substandard, creating unsafe conditions and frequent maintenance needs. The dikes, which are used to access some of the slips, have uneven surfaces and are overtopped at times. Large rocks in and around the marina entrances present a hazard to boaters.
