DIVISION OF WATER QUALITY  
UTAH DEPARTMENT OF ENVIRONMENTAL QUALITY  
PUBLIC NOTICE

**AMENDMENT TO THE FISCAL YEAR 2019 INTENDED USE PLAN & PROJECT PRIORITY LIST**

The Utah Water Quality Board is accepting public comment on the proposed amendment of FY 2019 Intended Use Plan (IUP) & Project Priority List (PPL) for the Utah Wastewater Project Assistance Program which allows for funding of wastewater treatment projects, nonpoint source pollution control, storm water and underground wastewater disposal system projects. The proposed amendment for the FY2019 will allow Transferring Funds between SRF Programs.

**THOSE AFFECTED BY THE PROPOSED CHANGES:**

The proposed amendment for the FY19 IUP will state: The Water Quality Board and Division of Water Quality reserve authority to transfer funds from the Clean Water SRF program to the Drinking Water SRF (DWSRF) program. The amount reserved for future transfers is up to 33% of the DWSRF capitalization grant award. The table below indicates the reserved transfer amount for award year 2019: DWSRF Capitalization Grant Award \$11,004,000, Reserved Transfer Amount \$3,631,320. For FY19, the projected amount of funds to be transferred is \$0, with no short- or long-term impacts on the fund. Justification for any transfers to the Drinking Water SRF program, including amount, type of funds, and fund impact, will be documented in a future Intended Use Plan (IUP). The amendment will reserve the authority to transfer funding to the DWSRF program. A Memorandum of Understanding between the divisions to process the actual transfers will require the Water Quality Board approval.
