

**UTAH WASTEWATER OPERATOR CERTIFICATION COUNCIL  
UTAH WASTEWATER OPERATOR CERTIFICATION**

**COMPREHENSIVE APPLICATION - Page 2**

**C. Training Record** (Required for Renewals - three year period prior to certificate expiration only)

I certify that I have earned the required Continuing Education Units (CEUs) for the certification renewal(s) designated in this application. If additional training needs to be recorded in the datase, I have enclosed the required documentation with this application. See the "*Certification/Training*" link on *www.waterquality.utah.gov* for required information to include.

Additional Training Information Attached

**D. Education Record** (Minimum High School Equivalency for any grade certification)

School	School / Location	Dates Attended	Major Subject	Date Completed	Highest Grade Completed

UTAH WASTEWATER OPERATOR CERTIFICATION COUNCIL  
UTAH WASTEWATER OPERATOR CERTIFICATION

COMPREHENSIVE APPLICATION - Page 3

Attachment A

**Part I – Current supervisor’s assessment of operator’s qualification for certification “With” or “Without” restriction \*\***

I, \_\_\_\_\_ (supervisor’s printed name) \_\_\_\_\_ (title)  
stipulate that \_\_\_\_\_ (operator's printed name) is presently employed at  
\_\_\_\_\_ (facility name) and meets the qualification of education  
and experience noted below to become certified with a Classification \_\_\_\_\_ Grade \_\_\_\_\_  
certificate \_\_\_\_\_ restriction. \_\_\_\_\_  
(With or Without) (Collection / WW Treatment / SLS / WW Lab (I, II, III, IV)  
Analyst / Biosolids / Plant Maintenance Tech)

**Qualifications for Operator Grades.**

\*\*See Supervisor's Authorization below

General:

- "Qualification Points" means total of years of education and experience required. All substitutions are year for year equivalents. A college "year" is considered 45 quarter hours or 30 semester hours of credit.
- College-level education must be in a job-related field to be credited. However, partial credit may be given for non-job related education at the discretion of the Council.
- Relevant and specialized operator training may be substituted for education requirement, where 25 CEUs is equivalent to 1 year of education
- "Operating Experience" means experience gained in operating a wastewater treatment plant or collection system which enables the operator to make correct supervisory, operational, safety, and maintenance decisions affecting personnel, water quality, public health, regulatory compliance, and wastewater works operation, efficiency, and longevity.

**Grade I - 13 points required**

1. Twelve years education (one point per year).
2. One year operating experience (one point per year).
3. Experience may be substituted for all or any part of the education requirements, on a one-to-one basis.
4. Education may not be substituted for experience.

**Grade II - 14 points required**

1. Twelve years education (one point per year)
2. Two years operating experience (one point per year)
3. Up to one year of additional education may be substituted for an equivalent amount of operating experience.
4. Experience may be substituted for all or any part of the education requirement, on a one-to-one basis.

**Grade III - 16 points required**

1. Twelve years education (one point per year)
2. Four years operating experience (one point per year)
3. Up to 2 years of additional education may be substituted for an equivalent amount of operating experience.

**Grade IV - 18 points required**

1. Twelve years education (one point per year)
2. Six years operating experience (one point per year)
3. Up to 2 years of additional education may be substituted for an equivalent amount of operating experience.

**Part II - Designation of Direct Responsible Charge (DRC) Responsibility at the above System**

"Direct Responsible Charge (DRC)" means active on-site charge and performance of operation duties. The person in direct responsible charge is generally a supervisor over wastewater treatment or collection who independently makes decisions affecting all treatment or system processes during normal operation which may affect the quality, safety, and adequacy of treatment of wastewater discharged from the plant. In cases where only one operator is employed, this operator shall be considered to be in direct responsible charge. (Utah Administrative Code R317-10-4.1.)

- Employee is WW Treatment DRC
- Employee is NOT WW Treatment DRC
- Employee is NOT WW Collection DRC
- Employee is WW Collection DRC

\*\*The Supervisor's Authorization (typed or original) indicates that this statement of designation concerning the employee's responsibility as Direct Responsible Charge (DRC) operator is true as of the date of this application and that the employee meets the requirements for certification as stated in Part I.

Supervisor's Authorization\*\* \_\_\_\_\_

## INSTRUCTIONS - Page 4

See Below for Details of Information Required to Process Certain Types of Certification Actions

### Mandatory Certification Classifications

Wastewater Treatment I-IV, Collections I-IV, and Small Lagoon Systems I are required certifications for those individuals designated as "direct responsible charge" (DRC). The chief operator must be certified at the same grade as the facility rating.

### Voluntary Certification Classifications

Voluntary testing is now available for Wastewater Laboratory Analyst I-IV, Biosolids Land Applier I-II, and Wastewater Plant Maintenance Technologist I-III.

### CRITERIA FOR CERTIFICATION GRADES (Wastewater Treatment, Collection and Small Lagoon System)

Grade	Education (#yrs.)	Experience (#yrs)	Other
I	12	1	no education may substitute for experience
II	12	2	up to 1 yr. relevant education may substitute for equivalent experience
III	12	4	up to 2 yrs. relevant education may substitute for equivalent experience
IV	12	6	up to 2 yrs. relevant education may substitute for equivalent experience

\*If the above experience criteria is not met and documented on the application, a "restricted" certificate would be issued.

Please see R317-10, *Certification of Wastewater Works Operators*, for more information on certification requirements. **More information is available at "Wastewater Operators" link on the <https://deq.utah.gov/water-quality/wastewater> website.**

**EXAM:** Complete Items A, B, D, E and F of application form, sign, and have supervisor complete Attachment A.

**DIRECT RESPONSIBLE CHARGE (DRC):** Supervisor attests to the operator's DRC status by completing Attachment A.

**Not all operators** are required to be certified; only those defined as in "direct responsible charge" (DRC) must be certified at the same grade as the facility rating. Those applicants not meeting the criteria in the box above may still apply for certification, but will be issued **restricted** certificates upon passing the examination.

**CHANGE IN STATUS --RESTRICTED TO UNRESTRICTED:** Complete Items A, B, D, E, and F of application form, sign, **and** have supervisor complete Attachment A endorsing operator's qualification for a certificate "without restriction."

**CHANGE IN STATUS --RESTRICTED TO UNRESTRICTED with RENEWAL:** Must have CEUs on record, or included.

**Restricted certificates** will be issued if the applicant passes the exam, but lacks the experience or education required for a particular grade. Certificates become unrestricted when an application and appropriate fee have been submitted showing the applicant meets minimum education and experience requirements. An *unrestricted* certificate will then be issued. Individuals required to be certified may operate a system with a restricted certificate of the required grade for up to 1 year for Class I & II facilities, or up to 2 years for Class III & IV facilities, provided an unrestricted certificate can be obtained at the end of the stipulated period.

**RECIPROCITY:** If you hold a current certification in another state, complete Items A, B, D, E and F of the application form. (Include a copy of present certificate). If employed in Utah at time of application, wastewater supervisor should complete Attachment A.

A Utah certificate of reciprocity may be issued when an applicant holds a valid certificate issued by a certifying authority with equivalent standards and is currently employed in Utah. Otherwise, a "letter of intent to issue a certificate" may be issued.

**RENEWAL:** A "simplified" form is now available for renewals. Search "wastewater operator forms" on <https://deq.utah.gov>. Certificates must be renewed each three years and expire on December 31 of the last year of the certificate. Operators considered in **DRC must** renew by the expiration date for the wastewater works to remain in compliance. **Expired (Lapsed)** certificates may be "reinstated" **within one year** after expiration by payment of a reinstatement fee along with the renewal fee. However, all required CEUs must have been accrued **before** the certificate expired on December 31st.

**REINSTATEMENT:** Allowed up to *one year* after expiration if sufficient CEUs were earned *prior* to expiration.

**\*NEW REQUIREMENT: CITIZEN/ALIEN IDENTIFICATION CERTIFICATION:** Must have on record, or included.

Send completed application, ***notarized Citizen/Alien ID form*** and appropriate fee to:
