

Utah Lake Water Quality Study
Science Panel Meeting
February 8, 2019
Salt Lake City, UT

Exploratory Research Plans Utah Lake Nutrient Criteria Development Technical Support

Objective

- Review exploratory research plan outline
 - Discuss format and elements
 - Get the architecture right
- Discuss exploratory research ideas/projects
 - Start filling in the content

Exploratory Research Plan

- Go to Document

Exploratory Research Ideas

- Group exercise
 - Brainstorm exploratory research ideas (see handout again)
 - E.g., role of macrophytes in resuspension (exclusion study), mapping suitable macrophyte habitat (soil, light, flow)
 - Prioritize exploratory research ideas

Next Steps

- Tt to begin drafting exploratory research plan
 - Logistic elements first
 - Send those components to SP for review by next meeting
- SP to finalize list of research priorities by/in next meeting
- SP to help draft language for studies by/in next meeting
- Compile draft report after next meeting – for review to panel late march
- Complete exploratory plan by 4/21
