Director

**UTAH DEPARTMENT OF ENVIRONMENTAL QUALITY
DIVISION OF WATER QUALITY**

**PUBLIC NOTICE OF THE CALL FOR DATA
FOR THE 2018/2020 COMBINED INTEGRATED REPORT**

Purpose of Public Notice

The Division of Water Quality (DWQ) will be assessing the water quality of surface waters of the State (e.g., streams, lakes, etc.) to determine their support of designated beneficial uses for the combined 2018/2020 Integrated Report. The Integrated Report is submitted every two years for Environmental Protection Agency approval and includes the 305(b) assessment report and 303(d) list of impaired waters. Utah's Beneficial Uses are designated as drinking water, recreation, aquatic wildlife, agriculture and the Great Salt Lake (Utah Administrative Code R317-2-6). DWQ monitoring teams and cooperators collect water quality data that is used for evaluating the water quality of surface waters. To assist DWQ in making assessment decisions, we are soliciting any additional water quality data and information from individuals or organizations for the 2018/2020 combined Integrated Report.

Call for Data Submissions

Data and information submissions are invited any time prior to the close of business on July 20, 2019. Data providers must submit files electronically, following the submission processes and tools provided on the [Call for Data](#) website. If internet access is not available, please contact Jodi Gardberg at (801) 536-4372 or jgardberg@utah.gov.

Further Information

All individuals interested in submitting data and information must fill out the Call for Data submission registration form on the [Call for Data](#) website. For questions, please contact Jodi Gardberg by phone (801) 536-4372 or e-mail jgardberg@utah.gov.
