UPDES CAFO General Permit (UTG080000) Soil Analysis Recordkeeping Form

Instructions: For each soil sampling event, document the sample date, the field sampled, and the individual who performed the sampling. For "Sampling Method in NMP?" indicate "Yes" if the samples were collected using the protocols described in the NMP; if alternative sampling methods were used, indicate, "No" and attach a sheet describing the sampling methods used. After the analytical results are received, document the date you received the analysis and the analytical methods used for OM, N and P analyses. Document the analytical results by inserting the lab reports behind the recordkeeping form.

Date of Sample Collection	Field Name or ID	Sampler's Name	Sampling Method in NMP? (If "no," attach description)	Date Analysis Received	Analytical Method
