## UPDES CAFO General Permit (UTG080000) Land Application Equipment Inspection and Calibration Log Sheet

Instructions: Use this form to keep records of your manure, litter, compost, and process wastewater equipment inspections. For each inspection or calibration, provide the information below. Make additional copies as needed.

- Equipment: The equipment calibrated or inspected.
- Inspection/Calibration Date: The date of the inspection or calibration.
- Calibration Method: Method used for calibration (e.g., weight-area method, load-area method); enter "N/A" for inspections.
- Inspection/Calibration Results: Provide statements such as "no leaks identified," "recalibrated equipment," or "equipment in calibration," or describe deficiencies identified.
- Date Fixed: The date that any observed deficiencies were fixed.

Equipment	Inspection/ Calibration Date	Calibration Method	Inspection/Calibration Results	Date Fixed
