

**UPDES CAFO General Permit (UTG080000)  
Discharge and Overflow Records**

*Instructions: Use this form to record overflows and discharges to surface waters of the state. Overflows must be recorded whether or not they result in a discharge. Record the type of incident (discharge or overflow), the date, time, and estimated volume (include units) of the discharge or overflow, and a description of discharge or overflow. The description should include at a minimum the source (structure, field, etc.) and cause of the discharge or overflow.*

*\*Discharges to surface waters of the state also must be reported to DWQ using the UPDES CAFO General Permit (UTG080000) Discharge and Noncompliance Reporting Form.*
