Do not eat

Why is there a consumption advisory?

Some fish from Big Sand Wash Reservoir have high levels of mercury in them making them unsafe to eat in large amounts. Mercury is a heavy metal that can harm your health. Pregnant women and children under six are especially vulnerable to harmful effects of mercury.

How can I reduce my risk?

You can't remove heavy metals like mercury by any cooking or cleaning methods. Instead, follow the monthly meal recommendations on the left to safely eat fish from Electric lake.

Smallmouth Bass

Walleye

Yellow Perch
